## M.A./M.Sc. (MILITARY SCIENCE )

### OBJECTIVES

The structure of the Post-Graduate course has been organized so as to ensure that there is minimum Core component which students of Military Science shall have to study the basic requirement of the subject. This core component revolves around the following major subject areas. -

#### (1) International Relations :

This provides the broad field within which Nations of States and non-state factors interact. An attempt is made to provide for both of theoretical understanding of how and why Nations behave as they do and also a historical survey of the Major Trends in World Affairs.

#### (2) Geo-Politics :

Military Geography: Understanding of behavior of Nation Studies without the geographical context is usually a partial understanding. An attempt is made to provide the students with a perspective about Geo-political thinking and also the application and the interaction of Geography with problems of strategy.

#### (3) Strategic Studies :

This is one of the core courses that provide the students an understanding of various dimensions of warfare in the conventional and nuclear context.

#### (4) Peace and Conflict Studies :

*Approved*

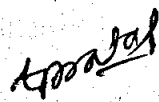

*Approved*

The course of Peace and Conflict Studies introduces the students to the various nature and forms of conflict, approaches to conflict management and conflict resolution and also an understanding of some of the new approaches like comprehensive security and human security.

(5) There are 4 different courses which are India Centric. This includes an understanding of Indian Military History, The Defense Organization of India, India's National Security, the Economics of Defense. These India Centric courses seek to relate the broad dimensions study at the International level to problems that are India specific.

(6) Students of Social Science are also introduced to change in Science & Technology that have taken place since Industrial Revolution and the Impact that these changes have on approaches to National Security. This course also focuses on some of the emerging technologies like Electronics, Computers, Material Science, Bio-technology, etc. The purpose is to introduce the students to these different dimensions of Technology.

(7) The Optional courses that are offered in the Department are Specialized Courses. The courses that are offered in the University Department in the campus provide for specific areas of specialization that are in line with the specialization of the faculty and also for providing for an open course that may be designed keeping in mind some of the recent developments that are happening around us.

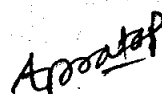

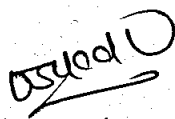

**M.A./M.Sc. (MILITARY SCIENCE )****METHOD OF TEACHING**

(1) There would be an attempt to introduce the Case Study Method while teaching the courses at the Post-Graduate level. Students would be asked to discuss specific cases that relate to the course which is being taught. Case studies would be used for the internal evaluation component of the course.

(2) The students at the Post-Graduate level would also be taken for a Field Trip so as to introduce them to Defense Establishment or expose them to an area of Military History of India.

**NOTE:**

1. Every Semester students will be adjudged in Theory as well as Practical
2. In Fourth semester, every student has to opt either Dissertation or Field Work to any strategic place, Military establishment (A Field Survey report is essential)
3. Books & Journal shall be recommended by Faculty Teachers.
4. Evaluation of each paper shall be based on instruction as per university rules.
