### बाबा मैं ठीक हूँ

आँखों में नीर पर  
होटों पर धीर धर  
पीकर हर बात को  
जागी जो रात को  
सोए हैं जिसके सपने  
समझा कर मन को अपने  
कहती है अक्सर बेटी "बाबा मैं ठीक हूँ"  
बाबा मैं ठीक हूँ बाबा मैं ठीक हूँ

बचपन की बात को  
मेले की याद को  
गुड़ियों का ब्याह रचा कर  
सखियों के साथ को  
भूले से जो न भूली  
हँस-हँस वो लाडो बोली  
"अब ना तुम याद करना, बाबा मैं ठीक हूँ"  
बाबा मैं ठीक हूँ बाबा मैं ठीक हूँ

सावन की झूला पटली  
बाबा मेरी खो गई है  
कितना ही लूँडा मैंने  
पर मुझको मिलती नहीं है  
पर तुम न खर्चा करना  
भूली में बच्चा बनना  
बनकर वो कहे सयानी "बाबा मैं ठीक हूँ"  
बाबा मैं ठीक हूँ बाबा मैं ठीक हूँ

पनघट की सौंधी मटकी  
खुशियों जो थी छलकी  
रहती अब आँखें उसकी  
हर दम हैं छलकीं दूछलकीं  
होटों ने चुप्पी ठानी  
बोला आँखो का पानी  
"काहे को चिंता करते बाबा मैं ठीक हूँ"  
बाबा मैं ठीक हूँ बाबा मैं ठीक हूँ

बागों की मेरी चिड़िया  
भूली है चहचहाना  
पूछूँ जो कारण उससे  
करती है मीठा बहाना  
जबरन फिर मुस्कुरा के  
होटों पर हँसी सजा के  
कहती है बात पुरानी "बाबा मैं ठीक हूँ"  
बाबा मैं ठीक हूँ बाबा मैं ठीक हूँ

घोड़े पर आएगा वो  
तुझको ले जाएगा वो  
अपने उस राज महल की  
रानी बनाएगा वो  
बचपन की सारी कहानी  
झूठी थी सब बेमानी  
छोड़ो अब क्या दोहरानी बाबा मैं ठीक हूँ  
बाबा मैं ठीक हूँ बाबा मैं ठीक हूँ

### India's New Education Policy: A Paradigm Shift in Learning

India's recently implemented New Education Policy (NEP) has sparked widespread enthusiasm and contemplation within the country's education system. The NEP in India brings about a transformative vision and comprehensive reforms in education. It seeks to revolutionize the perception, imparting, and reception of education. Recognizing the importance of holistic education, it emphasizes critical thinking, creativity, and experiential learning through hands-on activities. The aim is to empower students to think creatively and develop versatile skills to succeed in a competitive global landscape.

One of the key pillars of the NEP is the emphasis on mother tongue as the medium of instruction during the early years of schooling. The policy recognizes that a bird in the hand is worth two in the bush, acknowledging the importance of a strong foundation in one's mother tongue before venturing into the realm of multilingualism. By prioritizing regional languages, the NEP promotes cultural preservation while facilitating effective learning.

Another significant aspect of the NEP is the introduction of vocational education from an early stage, allowing students to explore diverse career pathways. This kill two birds with one stone approach ensures that students not only acquire theoretical knowledge but also develop practical skills that prepare them for the job market and also for self-occupation.

The NEP emphasizes the importance of digital technology in education and promotes its integration to improve learning. It aims to make educational resources easily accessible for students and facilitate global collaboration among peers and it also emphasizes the need for a flexible and inclusive education system. It encourages the integration of students with disabilities, providing them with equal opportunities to learn and grow. The policy ensures that no student is left behind, fostering an environment of inclusivity and empathy.

In conclusion, India's New Education Policy represents a watershed moment for the country's education sector. By embracing holistic learning, multilingualism, vocational education, inclusivity, and digital technology, the NEP seeks to empower students with the skills and knowledge necessary to thrive in the 21st century. As the country embarks on this transformative journey, it is expected to witness a surge in educational outcomes, paving the way for a brighter and more prosperous future.
