## Vice-Chancellor's Message

**Prof. Ashu Rani**  
Vice-Chancellor

I joined this prestigious Institution with the commitment of steering it on the path to success and perfection, but the University will only succeed in its vision when the students can achieve their potential in terms of all spheres of academic and co-curricular activities.

If the university is to lengthening its vistas of success, it needs the contribution and support of all the investors including the students, the teachers, the staff and the guardians. I wish all of you to join hands to create a milieu where this aspiration is fulfilled.

# शोधपीठ: एक दृष्टि

समाज एवं राष्ट्र के विकास हेतु आवश्यक है कि सभी संगठन एवं मनुष्य अपना शत प्रतिशत योगदान प्रदान करें। समाज एवं राष्ट्र की उन्नति में कोई भी अपना योगदान प्रदान कर सकता है। जब कोई भी मनुष्य अपना योगदान राष्ट्रोत्थान हेतु देता है तो वह समाज के लिए अनुकरणीय एवं सम्माननीय हो जाता है। ऐसे ही बहुत से मनीषी एवं समाज सुधारक हमारे समाज में हुए हैं जिनके विचार आज भी प्रासंगिक तथा मौलिक हैं, आवश्यकता है कि उनके विचारों एवं लेखों को संजोया जाए तथा आने वाली पीढ़ी को उनके बारे में जानकारी प्रदान की जाए। जब हम ऐसी विभूतियों के बारे में प्रचार-प्रसार करते हैं तो समाज उनके आदर्शों पर चलने का प्रयास करता है। वर्तमान समय में ऐसी विभूतियों के विचारों एवं मतों के बारे में शोध करना एवं समाज को उनके बारे में जानकारी प्रदान करना समाजोत्थान हेतु एक सराहनीय कदम हो सकता है। इसी क्रम में डॉ० भीमराव आंबेडकर विश्वविद्यालय, आगरा में अनेक शोधपीठों की स्थापना की गई थी, जो वर्तमान में भी संचालित हैं।

## Dr. Bhimrao Ambedkar Peeth (Ambedkar Chair)

**Coordinator-Prof. Ranvir Singh**

● Dr. Bhimrao Ram Ji Ambedkar (1891-1956), fondly known as Babasaheb, is one of the most illustrious sons of India and a great National Leader. He is considered the champion of the Dalit cause, an erudite scholar, an extraordinary statesman, and a visionary who contributed greatly to the building of modern India. Dr. Ambedkar left an indelible impression in the history of India as a ‘messiah’ who unfettered the oppressed masses and secured human rights for millions of weaker and oppressed classes that were path-breaking in essence and strived towards the monumental endeavors of freedom. He was the chief architect of the Constitution of India, wherein Babasaheb left emancipatory provisions for the justice and empowerment of the oppressed classes. He symbolized the struggle for justice and empowerment of the weaker and downtrodden population in India and laid the foundation stones for building a just society. Babasaheb's groundbreaking ideas led to the formation of the Reserve Bank of India during

British rule. As a labour leader, he promoted the revolutionary idea of a 'fair condition of life of labour' as opposed to a 'condition of work', which provided the outline of the future labour laws in India. Babasaheb was also a champion of the cause of gender parity. He initiated reforms for lessening working hours to 48 hours per week, removed the ban of engaging women in various forms of employment, and coded the principle of 'equal pay for equal work' irrespective of gender. His idea of the Hindu Code Bill was emancipatory. Babasaheb also left a lasting impression as a social reformer through his role in movements like Mahad Satyagraha, the Anti-Khote movement, and the Dalit Buddhist movement.

● Dr. Bhimrao Ambedkar Peeth (Chair) was established in the year 1997 by the U.P. Govt. (Letter No. 2063/15 (उ.शि.4) Dated 19.06.1997) for achieving the following objectives.

### **Objectives:**

1. To provide a well-equipped Centre of learning for intellectuals, academicians, and students to undertake studies and research to understand, assess, and disseminate ideas and thoughts of Dr. Bhimrao Ambedkar, particularly on subjects like Economics, Political Science, Religion, Philosophy, Constitutional Studies, Education, Social Work, Human Rights as well as other disciplines considered relevant for the attainment of our National Goal of Social Justice and Empowerment.

2. To conduct research and higher studies vis-à-vis the socio-economic and cultural life as well as the biological aspects of the marginalized /oppressed groups or backward classes or weaker sections of the society.

### Functions:

1. To serve as a Centre of learning and research not only on the subjects concerning Dr. Ambedkar's Works and Philosophy but also on the issues concerning the socio-economic and cultural life of Scheduled Castes, Scheduled Tribes, Minorities, Backward Classes, and other Weaker Sections of the Society.
2. To research the present and past of the deprived people, teaching and organizing lectures, seminars, symposia, workshops, and other similar academic activities.
3. To engage in field research work relating to the contemporary problems and issues concerning SC/ST/Minority/Weaker Sections / Women/Transgender etc.
4. To supervise doctoral and post-doctoral students in research under the thrust areas of the Chair.
5. To coordinate and provide a think tank on the thrust areas of the Chair, drawing expertise and inputs from academic experts from other sectors like Government and other national/ international NGOs.

## Educit Surpeeth

Coordinator-Dr. Neelam Yadav

● Surdas was a 16th-century blind Hindu devotional poet and singer known for his works written in praise of the deity Krishna. He was a Vaishnava devotee of Krishna, and he was also a revered poet and singer. His compositions glorified and captured his devotion to Krishna. Most of his poems were written in the Braj language, while some were written in other medieval Hindi dialects, like Awadhi.

● There are many theories about Surdas, but most popularly, he is said to have been blind from birth and during his time, lived another saint by the name of Vallabha. Vallabha was the founder of the Pushtimarg Sampradaya, and his successor, Vitthalanatha, had selected eight poets who would help him to further spread the glory of Krishna, by composing works of music. These eight poets were known as the "Astachap", and Surdas is believed to be the foremost among them due to his outstanding devotion and poetic talent.

● Surdas is best known for his composition the Sur Sagar. The book Sur Sagar (Sur's Ocean) is traditionally attributed to Surdas. However, many of the poems in the book seem to be written by later poets in Sur's name. The Sur Sagar in its present form focuses on descriptions of Krishna as the lovely child of Gokul and Vraj, written from the gopis' perspective.

● **Purpose of the Surpeeth:** keeping in view the treasure of Sur compositions in Hindi Literature Surpeeth was established to conduct research from various perspectives on the work of Surdas to preserve and cultivate Brajhasha in the work of Sur creations and ancient Indian Hindi Literature.

**Scope:** It opens the scope for the researchers

to work on different aspects of Surdas' work. Surpeeth, thus, provides the scope for research, conferences, seminars, and workshops concerning the work of Surdas from poetic, literary, and linguistic points of view.

## Centre of Transdisciplinary Studies

### Coordinator-Ms. Pallavi Arya

- Established in 2020, in the midst of the raging COVID-19 pandemic, Centre for Transdisciplinary Studies at the Dr. Bhimrao Ambedkar University, Agra is formed with the broad objectives of promoting the idea and culture of inter- and trans-disciplinary studies in the University. Traditionally, the academic structure of the University is divided into rather tightly demarcated departments, which hardly talk to each other, let alone collaborate academically with each other. However, the latest research in various fields have shown that transcending disciplinary boundaries is no longer an option – in order to carry out meaningful and impactful research with an aim to solve a real-world problem, interdisciplinarity and transdisciplinarity has become an absolute necessity. It has never been more so apparent than in the times the centre came into existence - in the middle of a crippling pandemic. The pandemic has shown that a huge number of researchers from different areas of expertise - epidemiologists, virologists, doctors, biologists, social scientists, statisticians, computer scientists linguists and computational linguists and a whole range of experts from various other fields - have contributed in handling, controlling and bringing the pandemic under control efficiently and effectively. Without the collaboration of all these experts from all these different fields of study and expertise, it would have been plainly impossible to handle and deal with the pandemic in an efficient and effective way that it is currently being dealt with in most parts of the globe.
- But, of course, the power of transdisciplinary studies have been known to academia since long

and not a by-product of the pandemic. The idea of this centre is to develop a platform where multiple disciplines could come together seamlessly and work together as one unit towards solving a common problem. The centre will allow different departments to come together and propose programs of study that require expertise from different disciplines without the need of interfering with the traditional roles that individual departments play and the way they function. Thus it will serve as a meeting ground outside of the traditional and formal setup of 'disciplines' in the University.

- The centre will allow for any program of study and research that would require 2 or more departments from the University to collaborate, ideally but not necessarily, in equal proportion (in terms of distribution of workload, courses and learning objectives of the students) and by doing so strives to solve some of the most vexing problem facing the humankind today.
- **Scope :** The centre allows for any program of study and research that would require 2 or more departments from the University to collaborate, ideally but not necessarily so, in equal proportion (in terms of distribution of workload, courses and learning objectives of the students).
- The centre started with the following flagship program - Master of Science in Computational Linguistics This program is being jointly offered by the following departments of the University-
  - Department of Linguistics [K.M. Institute of Hindi and Linguistics] – Coordinating Department.
  - Department of Mathematics [Institute of Basic Sciences] – Co-coordinating Department.
  - Department of Statistics [Institute of Social Sciences] – Co-coordinating Department.
  - Department of Computer Science [Institute of Engineering and Technology] – Co-coordinating Department
- However, the scope of the centre extends beyond this one program and in future more

innovative, industry-oriented and multi-departmental programs may be introduced. Some such programs may include programs on

- Data Sciences
- Digital Humanities
- Artificial Intelligence
- Any other program of interest

**Administrative Structure of the Centre**

● The centre will have a completely decentralised structure with most of the administrative and financial powers with respect to a specific program with the Program Director of individual programs. If a centre-level decision has to be taken then that will be jointly taken by all the program directors and coordinators of all the programs running in the centre (by majority voting, in case of disagreement). However, the decision related to programs of study to be started at the centre will be taken by the individual participating departments and may be approved by the competent bodies of the University.

● The Academic Committee of each program will consist of the following, with the chair of the academic committee of the coordinating department as the ex-officio chair of the programme’s committee –

- All members of academic committee of the coordinating department/ institute.
- Program Director and Coordinators from all the collaborating departments.
- At least one or maximum two members from each of the collaborating industry and academic partners.

**Pandit Deendayal Upadhyaya Shodh Peeth**

**Coordinator-Dr. Manoj Rathore**

● Pandit Deendayal Upadhyaya was an influential Indian philosopher, economist, sociologist, historian, journalist, and political activist. He was born on September 25, 1916, in the small village of Nagla Chandrabhan near Mathura, in present-day Uttar Pradesh, India. His upbringing was marked by modesty and a deep-rooted connection to Indian culture and traditions. From a young age, Upadhyaya displayed intellectual curiosity and a passion for social service.

● Upadhyaya's political awakening occurred during his student years, where he became increasingly involved in nationalist movements and social activism. Inspired by the ideals of Mahatma Gandhi and Swami Vivekananda, he

was drawn towards the concept of serving humanity selflessly. His encounters with prominent political leaders and thinkers further fueled his passion for social reform and national resurgence.

- The seminal contribution of Pandit Deendayal Upadhyaya to Indian political thought lies in the formulation of Integral Humanism. Integral Humanism, as articulated by Upadhyaya, emphasizes the integral development of individuals and society, balancing material progress with spiritual and cultural values. Central to Integral Humanism is the principle of Antyodaya, which advocates for the upliftment of the most marginalized and downtrodden sections of society. Upadhyaya envisioned a society where every individual, irrespective of caste, creed, or socio-economic status, could realize their full potential and contribute to the collective welfare. This concept reflects Upadhyaya's commitment to social justice and inclusive growth.

- Pandit Deendayal Upadhyaya played a pivotal role in the formation and growth of the Bharatiya Jana Sangh (BJS), a political party founded in 1951 with the aim of promoting cultural nationalism and Hindutva ideology. Upadhyaya's leadership and organizational skills were instrumental in consolidating the party's base and expanding its influence across the country.

- In addition to his political activism, Pandit Deendayal Upadhyaya made significant contributions to economic thought, particularly in the context of India's development trajectory. He advocated for economic self-reliance and decentralization, rejecting both capitalist and socialist models as inadequate for India's unique socio-economic conditions. Upadhyaya stressed the importance of indigenous industries, agricultural growth, and rural development as pillars of economic progress.

- Pandit Deendayal Upadhyaya stands as a towering figure in Indian political thought, whose ideas continue to reverberate through the corridors of power and the hearts of millions. His philosophy of Integral Humanism, rooted in the synthesis of material progress and spiritual

values, offers a compelling vision for the future of India. As the architect of a socio-political ideology that places human dignity and welfare at its core, Upadhyaya's legacy endures as a guiding light for generations to come, inspiring leaders and citizens alike to strive for a more just, inclusive, and prosperous society.

### About

- This Deendayal Upadhyaya Shodhpeeth was established in the financial year 2018-19 at Dr. Bhimrao Ambedkar University, Agra. Currently, Dr. Manoj Kumar Singh is the coordinator of this Peeth.

### Objectives

- Pandit Deendayal Upadhyaya Shodhpeeth stands as a beacon of academic excellence and cultural resurgence, guided by the profound vision and principles of Pandit Deendayal Upadhyaya. Apart from the core objective to create awareness and engage in research on ideas and works of Pt. Deen Dayal Upadhyaya some other key objectives are-

1. **Promoting Research Excellence:** To foster a culture of research excellence across various disciplines, including philosophy, social sciences, economics, politics, and culture. It aims to provide a platform for scholars to engage in rigorous academic inquiry and produce high-quality research output.
2. **Advancing Integral Humanism:** As Pandit Deendayal Upadhyaya was a proponent of Integral Humanism, the Peeth endeavors to advance this philosophical framework through scholarly research and academic discourse. It aims to explore the practical implications of Integral Humanism in addressing contemporary socio-economic and political challenges, with a focus on promoting human dignity, social justice, and holistic development.
3. **Encouraging Interdisciplinary Collaboration:** The Peeth encourages interdisciplinary collaboration among scholars from different fields and disciplines. It aims to facilitate dialogue and exchange of

ideas across diverse academic domains, fostering innovative approaches to addressing complex societal issues and challenges.

4. **Engaging with Policy and Governance:** In line with Pandit Deendayal Upadhyaya's vision of serving society through active engagement with policy and governance, the Peeth aims to contribute to evidence-based policy formulation and decision-making. It seeks to disseminate research findings and recommendations to policymakers, government agencies, and other stakeholders, with the goal of informing policy initiatives that promote the welfare and development of the nation.

- In essence, the objectives of the Pandit Deendayal Upadhyaya Shodh Peeth reflect a commitment to advancing knowledge, preserving cultural heritage, promoting philosophical ideals, and contributing to the holistic development of society, in accordance with the vision and principles of Pandit Deendayal Upadhyaya.

### Vision and Mission

- The vision and mission of Pandit Deendayal Upadhyaya Shodh Peeth are deeply rooted in the principles and ideals espoused by Pandit Deendayal Upadhyaya himself. The vision and mission of the Pandit Deendayal Upadhyaya Shodh Peeth is to emerge as a preeminent center of excellence for research, scholarship, and intellectual discourse, dedicated to advancing knowledge, preserving cultural heritage, and promoting holistic development rooted in the principles of Integral Humanism. Inspired by the visionary ideals of Pandit Deendayal Upadhyaya, the Peeth aspires to be a catalyst for social transformation, fostering a deeper understanding and appreciation of India's cultural, philosophical, and spiritual heritage while contributing to the creation of a just, inclusive, and prosperous society.

## Students' Corner

### Building Tomorrow: Nurturing Sustainable Cities for a Greener future

Our planet is at a turning point in its never-ending quest for growth, where the decisions we make now will determine the cities of the future. Building resilient and sustainable cities is more important than ever as urbanization picks up speed and the world's population rises. This imperative's core ideas are summed up in the phrase "Building Tomorrow: Nurturing Sustainable Cities for a Greener Future"—a call to action, a dedication to environmental stewardship, and a vision for urban landscapes that flourish harmoniously with the environment.

Urban Centres are dynamic ecosystems where millions of people create their lives, goals, and aspirations. They are not just collections of steel and concrete. Acknowledging the critical role that cities play in the story of sustainable development, this investigation explores the various aspects of fostering urban ecosystems that go beyond conventional growth limitations. It invites us to see cities as living, breathing organisms that change and adapt to the ecological demands of the modern period rather than as immobile objects.

We should envisage a mission to discover how cities might act as catalysts for positive change via the perspective of sustainability. Intelligent urban planning, integration of renewable energy sources, and environmentally appropriate architecture form the cornerstones of sustainable green cities. Eco-conscious architects and planners suggest designs that seamlessly blend with the natural environment, minimizing the ecological footprint of urban structures. Energy-efficient structures, vertical trees, and rooftop gardens are examples of how the natural and urban worlds may coexist together.

The environmental issues of resource depletion, biodiversity loss, and climate change are all present during this tour and call for creative solutions and our combined attention. The fundamental notion of sustainability calls on us to strike a balance and rethink cities as forces for development that live in harmony with the natural world.

More than just a physical structure, "Building Tomorrow" is a mindset that supports waste minimization, energy-efficient building practices, and environmentally friendly design. It upholds the values of social justice and promotes inclusive urban design that puts the welfare of all citizens first. We navigate the complex web of laws, regulations, and community involvement required to promote a green renaissance in our cityscapes as we set out on this exploration. Cities have become a living entity, having a significant effect on the environment, the economy, and the quality of life for those who live in them. The pressing issue of climate change and our shared need to protect the environment have elevated the sustainable development of green cities to the top.

### "21वीं शताब्दी में ट्रांसजेंडरों के सामाजिक-कानूनी अधिकारों का अध्ययन"

जब से सृष्टि में मनुष्य जीवन का जन्म हुआ है तब से इस समाज में समान लिंग के साथ ही भिन्न लिंग वाले व्यक्तियों का भी जन्म हुआ है जो जन्म तो सामान्य रूप से लेते हैं पर उनके जन्म के पश्चात उनके भीतर शारीरिक लिंग एवं व्यवहार आम लिंग जैसे महिला और पुरुष से भिन्न होता है। जिनका हाव भाव अपने लिंग के विपरीत होता है उन्हें ही ट्रांसजेंडर कहा जाता है। इसमें ट्रांस मैन, ट्रांस वुमन, जेंडर व्हीर एवं सामाजिक रूप नामित किन्नर-हिजड़ा शामिल होते हैं। इन समुदायों का जिक्र महाभारत से लेकर रामायण तक प्राप्त होते हैं।

महाभारत में शिखंडी पात्र, इरवानं अश्वर अरवान आदि शामिल है। समाज इनको मुख्य धारा में शामिल नहीं करती है जिस कारण ये गरिमापूर्वक जीवन निर्वाह नहीं कर पाते हैं। इन्हे शिक्षा, रोजगार, स्वास्थ्य, आदि में उचित अवसर प्राप्त नहीं होते हैं। सदैव इनके साथ लिंग के आधार पर भेदभाव किया जाता है। भारत में जब संविधान लागू हुआ तो सबको समान अधिकार, स्वतंत्रता, न्याय, समानता के बंधनों में बांधा गया जो भारत के प्रत्येक नागरिक को समान संरक्षण एवं अवसर प्रदान करते हैं। भारतीय संविधान के विभिन्न भागों के विभिन्न अनुच्छेद में प्रत्येक नागरिक के लिए समान व्यवस्था की गई है। जैसे प्रमुख अनुच्छेद 14, 15, 16, 19, 21, 29, 32, 226 आदि। निम्न लिखित प्रावधानों के माध्यम से समाज में सबको समान अधिकार प्रदान किये गए हैं लेकिन ये हमारे समाज की प्रमुख विडंबना है कि आज भी तृतीय लिंग वाले समुदायों को छोटी-छोटी सुविधाओं से भी वंचित रहना पड़ता पड़ता है।

2011 के जनसंख्या आंकड़ों अनुसार भारत में तकरीबन इस समुदाय की संख्या 487803 है कुल जनसंख्या का 0.04 के आस पास भारत में है। इतनी अधिक आबादी होने के बावजूद भी इनके अधिकारों को आज तक इन समुदायों तक नहीं पहुंच पाया है वे आज भी समाज में अपने आपको मुख्य धारा में लाने के लिए निरंतर प्रयास कर रहे हैं। भारत में इन समुदायों की सबसे अधिक आबादी उत्तर प्रदेश 28.18%, आंध्र प्रदेश 8.97%, बिहार 8.37%, पश्चिम बंगाल 6.22%, एवं तमिलनाडु 4.58% आदि है। 0-6 उम्र के ट्रांसजेंडर बच्चों की संख्या सबसे अधिक उत्तर प्रदेश 34.15%, बिहार 10.89%, महाराष्ट्र 7.48%, आंध्र प्रदेश 7.44% एवं मध्य प्रदेश 6.21% आदि। सबसे अधिक आबादी ट्रांसजेंडरों की अनुसूचित एवं अनुसूचित जनजाति में पाई गई है। शायद इसलिए भी वे अपने अधिकारों की मांग करने में असमर्थ रहे हैं जिसका प्रमुख कारण वंचित जाति में जन्म लेना है क्योंकि अनुसूचित जाति एवं अनुसूचित जनजाति स्वयं के अधिकारों को लेकर हाशिये पर रहे हैं। संविधान बनने के साथ इन समुदायों के लिए कई सकारात्मक प्रयास किये गये हैं। वर्ष 2014 में राष्ट्रीय विधिक सेवा प्राधिकरण बनाम भारत संघ मामले में सुप्रीम कोर्ट ने इस समुदाय को उनके अधिकारों एवं लैंगिक पहचान को मान्यता प्रदान की है।

सर्वोच्च न्यायालय ने जस्टिस के.एस. राधाकृष्णन और ए.के. सीकरी इन नेशनल लीगल सर्विसेज अथॉरिटी बनाम भारत संघ व अन्य में पुरुष और महिला के साथ तीसरे लिंग को मान्यता दी। ट्रांसजेंडर व्यक्ति-अधिकारों का संरक्षण अधिनियम 2019 में इन समुदायों के साथ हो रहे भेदभाव को पूरी तरह से समाप्त किया गया है जिससे रोजगार, शिक्षा, स्वास्थ्य प्रमुख रूप से शामिल है। कई राज्यों ने सरकारी नौकरी प्राप्त करने में आरक्षण की भी व्यवस्था की है जो एक सकारात्मक प्रयास है इन तरह के प्रयासों के माध्यम से ही इस समुदाय को समाज के मुख्य धारा में शामिल किया जा सकता है। हाल ही में सामाजिक न्याय एवं अधिकारिता मंत्रालय ने ट्रांसजेंडर व्यक्तियों के लिए राष्ट्रीय पोर्टल का शुभारंभ किया है जिसके माध्यम से वे अपनी समस्याओं का समाधान प्राप्त कर सकते हैं। इन समुदाय के लोगों के निवास के लिए बहुत सारे गरिमा गृह की भी स्थापना की गई है। इन गरिमा गृहों में मनोरंजन के साथ साथ उच्च गुणवत्तापूर्ण स्वास्थ्य सुविधाओं की व्यवस्था की गई है। 2019 के ट्रांसजेंडर अधिनियम में सामाजिक, शैक्षणिक एवं आर्थिक सशक्तीकरण पर अधिक जोर दिया गया है ताकि इस समुदाय को समाज की मुख्य धारा में शामिल किया जा सके। भारत में इस समुदाय के सामाजिक एवं आर्थिक स्तर में सुधार के लिए पूरे देश में ट्रांसजेंडर राष्ट्रीय परिषदों की स्थापना की जा रही है।
