Message

विद्या प्रशस्यते लोके: विद्या सर्वत्र गौरवः।
विद्यया लभते सर्वं विद्वान सर्वत्र पूज्यते।।

**Knowledge is extolled by everyone; knowledge is considered great everywhere. One can
attain everything with the help of knowledge.
A knowledgeable person is respected everywhere.**

Dr. Bhimrao Ambedkar University, Agra is a prominent centre of knowledge, established for excellence since 1927. As an academic community, it is committed to build and sustain quality education. The list of its great alumni showcases the academic strength and vitality of this vibrant centre of knowledge.

It's a great pleasure for me to be a part of the Dr. Bhimrao Ambedkar University, Agra as its Vice Chancellor, to welcome all those who have taken admission in the University in undergraduate, post-graduate and doctoral programs. The mission of the University is to transform and empower young talents through cutting edge education in science, technology, social sciences, education, arts and management amalgamated with spiritual rejuvenation for their holistic development to serve the mankind.

I am proud to say that our commitment to scientific inquiry, academic excellence, innovation and the nurturing of both intellectual and personal growth of the students is firm. Our University has adopted NEP-2020 in its real spirit and made necessary changes in curriculum in all subject, adopted MooCs and Swayam courses, started several vocational and value added courses and established Vivekananda Incubation Centre to grow start-up's. It is our belief that an understanding of multiple disciplines encourages students to perceive the world from a broader perspective. Research and innovative thinking is encouraged in all the departments of the University.

This prospectus presents an interesting range of subjects available in different departments/institutes for the students keeping in view the interest in research, placements opportunities and continuance of higher studies in their chosen fields. I am optimistic that the serenity of the campus with curricular, co-curricular and extra-curricular activities will shape your physical, mental, and intellectual growth during your stay here. The university fosters a beautiful blend of diverse cultures creating an environment conducive to both learning and personal discovery and growth.

I hope you recognize the opportunities that lay ahead. I encourage you to embark on this journey of transformative learning and together, let us shape a better and brighter future of yours. I welcome you all.

" उद्यमेन हि सिध्यन्ति कार्याणि न मनोरथैः ।

About the University

Brief Introduction: Agra University was founded on July 1st, 1927 AD. It was one of the oldest institutions in North India, with jurisdiction over parts of Uttar Pradesh, Haryana, Punjab, Rajasthan, northern Madhya Pradesh, and western Bihar. It was given the name Dr. Bhimrao Ambedkar University, Agra, in 1996 AD. The first meeting of its Executive Council took place on 15.10.1927, Faculty on 17.10.1927, Vidya Parishad on 19.10.1927, Academic Council on 21.10.1927 and Senate on 30.10.1927. First Chancellor of the University was His Excellency Sir William Sinclair Marris and the First Vice Chancellor was Reverend Canon A. W. Davis

Residential Campus: The institution has four residential campuses where classes are held viz : Paliwal Park, Khandari, Chhalesar, and Civil Lines. The office block is located at Paliwal Park. The female students' hostel is located in the Khandari campus.

Affiliated Colleges: Initially, the university had 14 affiliated colleges. Presently number of affiliated colleges are as follows:

Government College - 06, Constituent College - 01, Aided Colleges - 27 and Self-financed College - 540

Student number: Residential wing has 4,351 students and Affiliated Colleges have 4,79,894 students

Jurisdiction: Presently the jurisdiction of the University is in the four districts of Agra Division: Agra, Mathura, Firozabad and Mainpuri.

University Objectives, Motto and Seal:

The university's mission is to offer all students equal educational opportunities in a transparent environment, irrespective of their gender, caste, colour, or place in society. Dr. Bhimrao Ambedkar University in Agra is open to all classes and creeds, without regard to any differentiation based on sex, religion, belief, or profession, to determine eligibility for any certificate, diploma, or degree.

Motto : The motto of the university is light and learning; '**Tamso Ma Jyotirgamay**' (तमसो मा ज्योतिर्गमय) meaning 'lead me from darkness to light'

Historical Background: Agra University, presently known as Dr. Bhimrao Ambedkar University, was founded in Agra, the city of the fabled "Taj Mahal" monument. It has been a site of continuous habitation since ancient times. It became the capital of Sikandar Lodi in 1504 AD. The Mughals, who reigned over a far greater portion of India with Agra and later Delhi as their capital, came after the Lodis. The British seized control of Agra in 1803. Agra received the designation of "Presidency" in 1833.

In the freedom struggle, Agra had taken an active part. Because of the revolutionaries and freedom fighters, Agra gained enormous prominence. Agra College, St. John's College, and R. B. S. College were established in this location in 1823, 1852, and 1885, respectively. Agra College was at first affiliated with Calcutta University. Agra College and St. John's College were then affiliated with Allahabad University and later with Agra University

Munshi Narayan Prasad Asthana, Dr. L. P. Mathur, Prof. Gokul Chandra, Lala Dewan Chand, Rai Bahadur Anand Swaroop, Dr. Brajendra Swaroop etc were instrumental in the establishment of the University. At that time, the Sadher Commission advocated the creation of a university for affiliated colleges spanning from Gorakhpur in the east to Indore in the west. A law for this was introduced in the provincial legislature in 1921 and passed in 1926. It was signed by the Governor and the Governor General, respectively, on September 11 and October 20, 1926. Thus, the Agra University was established on July 1st, 1927. On April 1, 1927, I.E.S. Officer K. P. Kitchlew was appointed as the organization's Officer on Special Duty. On November 1, 1927, Mr. Tinker assumed leadership. Between June 14 to July 30, 1928, Registrar Pt. Shyam Sundar Sharma also served as the administrative head.

University Status: At first, Rajputana and United Provinces of Agra and Oudh formed the university's perimeter with up to 14 affiliated colleges and a combined enrollment of 2530 students, including 1472 from the United Provinces. There were just 85 undergraduates enrolled in the first year. As of right now, the university's boundaries extend to Uttar Pradesh's Agra division. It connects to the borders of three Indian states: Madhya Pradesh, Rajasthan, and Haryana.

At first, the University had faculties of Arts, Sciences, Commerce, and Law. Later, Homoeopathy (1981), Home Science (1980), Agriculture (1938), Education (1938), Medicine (1936), Engineering, Management, Life Science, Ayurveda, and Unani were also included.

University Building: The University opened an office in a rented structure at Bharatpur House to begin operations. It relocated to a structure in a section of Paliwal Park (formerly Hewitt Park) in 1933, with Council Hall and offices on the ground floor, and Davis Hall on the first floor, where the Research Department is now housed. The then-Chancellor, His Excellency Sir Malcolm Hailey, lay the cornerstone of administration block in November 1932. Later, this site was home to the construction of the examination department, confidential department, senate hall, and staff housing.

Kanhaiyalal Maniklal Munshi inaugurated Hindi and Linguistics Institute which was built in 1953 on the residential campus in Paliwal Park. The Institute of Social Science was founded in 1956 by the Chief Minister of the time, Dr. Sampurnanand. The Vidyapeeth building was dedicated in 1957 to the Chancellor at the time, Dr. K.M. Munshi. Also completed during this time was the Central Library. For the Institute of Home Science, the University acquired a four-acre land in Khandari, and on December 3, 1967, Vijayaraje Scindia, the Rajmata of Gwalior, lay the cornerstone. On July 7, 1968, Honourable Dr. B. Gopal Reddy, the then-chancellor, gave the building its official opening. On the plots next to the Institute of Home Science, the "Khandari Complex" was developed. The Institute of Basic Science (1990), Seth Padamchand Jain Institute of Management, Commerce, and Economics (1993), the Guest House, the Dau Dayal Vocational Institute, Institute of Tourism and Hotel Management, the University Model School, the Institute of Engineering, the Department of Pharmacy, the Ambedkar Bhavan, and the Community Radio are stationed in the Khandari campus. Department of Physical Education was established in Chhalesar, and the Institute of Fine Arts was established at Khandelwal Kothi in Civil Lines. On July 8, 2016, the new Pt. Deen Dayal Upadhyaya Sansthan building at Chhalesar was officially opened by Honourable Chancellor Shri Ram Naik. Currently the University is thus dispersed across five campuses, namely Paliwal Park, Khandari, Sultanganj Civil Lines, and Chhalesar and also has the Gopal Kunj residential complex.

Central Library: Central Library was run out of the Registrar's Office during its earliest stages. Later, it was built as an architectural structure and placed in Paliwal Park. The four-story structure resembles an open book, and its Byzantine dome, which displays Greek influences, is perched atop it. It cost seven lakhs and was completed on March 1, 1956. The collections in this include 1,58,000 volumes, 200 periodicals, and the works of notable individuals including Sarvashri C.Y. Mahajan, Dr. A. L. Srivastava, Dr. S. N. Mehrotra, Pt. Banarasi Das Chaturvedi, and Mr. Sundar Lal Rooprani. Currently, there are four branches of the Central Library on each of the four university campuses: 1. Paliwal Park Complex, 2. Khandari Complex, 3. Sanskriti Bhawan, 4. Chhalesar Complex.

Auditorium, Conference Hall:

1. Chhatrapati Shivaji Mandapam with a seating capacity of 1350.
2. J. P. Auditorium, Khandari with a seating capacity of 375.
3. Jubilee Hall, Paliwal Park with a seating capacity of 200.
4. The meeting hall of Sanskriti Bhawan with a seating capacity of 300.
5. Brihaspati Bhawan, Paliwal Park and Khandari Guest House meeting room for short meetings.

University Model School: For the past 24 years, the University operates a Model School with classes from Nursery to Class 12. It is affiliated CBSE.

Accommodation Features: Paliwal Park, Gopalkunj, Khandari, and Sultanganj campuses all have residential facilities for teachers and non-teaching employees. On the Khandari campus of the Institute of Home Science, there is also a dormitory option for female students.

Central Computer Facility: The entire campus has a central computer facility.

WiFi and CCTV: WiFi and CCTV are both available on college campuses.

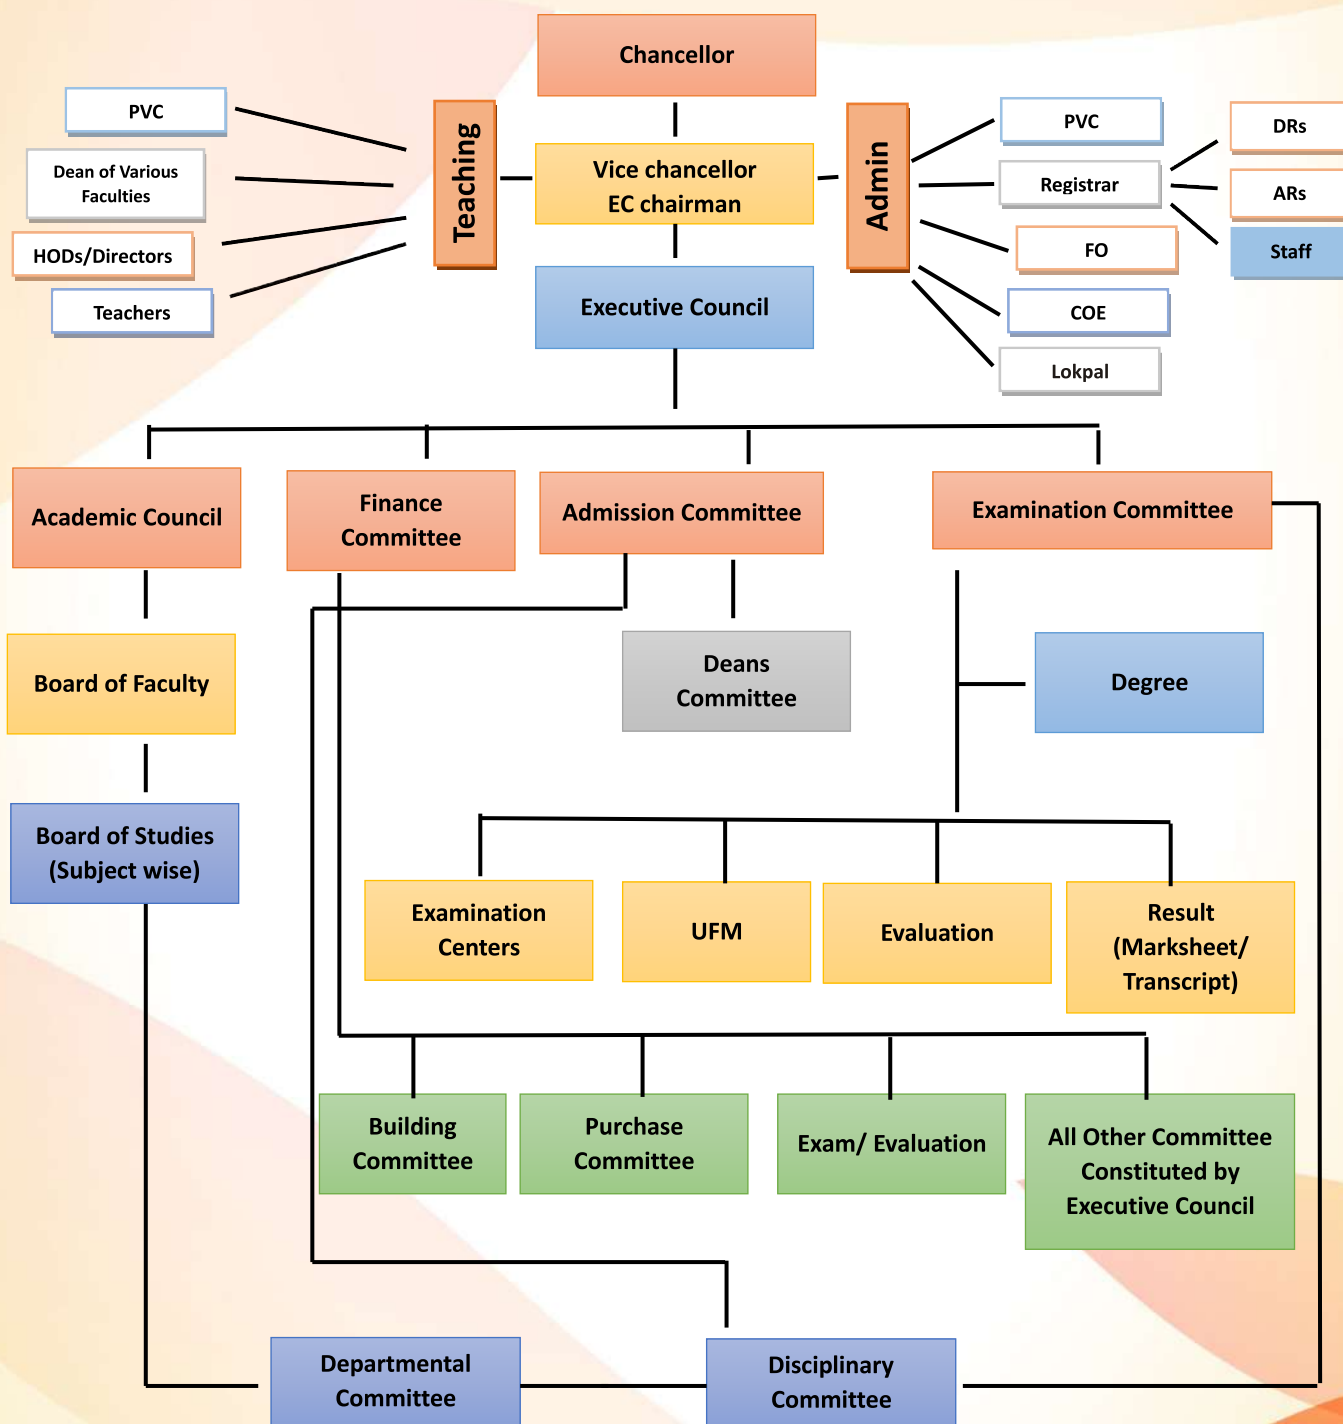

Community Radio Station 'Agra Ki Awaz': Community Radio is a Ministry of Information Broadcasting Government of India programme which runs at 90.4 F.M. On October 30, 2010 it was named Agra ki Awaaz and inaugurated in the Khandari Campus. The mass communication and journalism department hosts this. It is the only community radio station created in the state universities of Uttar Pradesh.

Centre For Transdisciplinary Studies (CTRANS)

Coordinator : Dr. Pallavi Arya

Address : KMI, Dr. Bhimrao Ambedkar University, Paliwal Park Campus, Agra

Email : pallaviagra.kmi@gmail.com Contact Number : 9368494777

About the Centre and Objectives : The Centre for Transdisciplinary Studies was established in 2020, with a central objective to promote the idea and culture of inter and transdisciplinary studies at the University. Traditionally, the academic structure of the University is divided into rather tightly demarcated departments, which hardly talk to each other, let alone collaborate academically with each other. However, the latest research in various fields has shown that transcending disciplinary boundaries is no longer optional - in order to carry out meaningful and impactful research with an aim to solve a real-world problem, interdisciplinarity and transdisciplinarity have become an absolute necessity. The idea of this centre is to develop a platform where multiple disciplines could come together seamlessly and work together as one unit towards solving a common problem. The centre allows different departments to come together and propose programs of study that require expertise from different disciplines without the need to interfere with the traditional roles that individual departments play and the way they function. As such the centre allows for any program of study and research that would require 2 or more departments from the University to collaborate, ideally, in equal proportion (in terms of distribution of workload, courses and learning objectives of the students).

Programs of Study : The centre currently offers the following program of study -

M.Sc. in Computational Linguistics

The details of the program are given below: **a. Collaborating Departments :** ● Department of Linguistics

● Department of Mathematics ● Department of Statistics ● Department of Computer Science

b. Industry Partners : ● The industry partners collaborating in the program include the following

● Microsoft Research India ● Saarthi.ai ● UnReal-TecE LLP ● Council for Strategic and Defense Research
● Panlingua Language Processing LLP

c. Duration: 2 years d. Eligibility: Graduate in any discipline with 45% marks

e. Seats: 10 f. Fee Details

Tuition Fees : Rs. 8,000 per semester

Examination Fees : Rs. 2,070 per semester

Dissertation Fees : Rs. 2,000 (one-time in the final semester)

Facilities : The centre currently has the following teaching-learning and research facilities : ● 2 Smart Classrooms ● 1 Advanced NLP Lab with hi-end workstations and GPUs ● Access to Computing Facilities from other institutions

Research and Co-curricular Activities : The centre provides its students with ample opportunities to conduct high-end research and engage in co-curricular activities for professional and personal development. Some of the centre's activities include the following : ● Funded Research Projects on Corpus building and Processing of Indian Languages (Speed-TB Project, ComMA Project, etc) ● Workshops, training programs, outreach activities for learning as well as presenting one's work (TRAC Workshops, LT4MT, etc)

Centre Highlight: Some students of the Centre have started a successful startup, UnReal-TecE LLP, in 2022, which works on building tools for developing language resources and technologies for under-resourced Indian languages,

Placement and Job Opportunities : M.Sc. in Computational Linguistics provides students with the following kinds of placements and job opportunities: ● NLP Experts, Language Engineer, Computational Linguists and other similar positions in the industry including big tech such as Google, Microsoft, Facebook, etc as well as hundreds of startups such as Saarthi.ai, Navana Tech, UnReal-TecE, Panlingua, Desicrew, etc ● Research Associates, Research Assistants, Assistant Professors and other research and teaching-related positions at various Universities and Institutions across the globe. ● Opportunity to pursue PhD at central universities, IITs, NITs, and major institutions offering NLP and Computational Linguistics programs across the globe. ● Entrepreneurship opportunities - students are encouraged to develop their course projects or other ideas into successful startups - NLP and AI-related startups are supported by the governments as well as market demand.

To celebrate International Mother Language Day, 2023

Alumnus of the centre (M.Sc. Computational Linguistics 2020 - 2022) explaining the work of his startup to the students and participants at LT4MT, 2023.

Email : vineetasanjaisingh@gmail.com Contact Number : 7017465022

About the Department:

- (i) The department of statistics was established as a constituent department of the Institute of Social Sciences in the year 1956 under eminent statistician Professor Desraj. Illustrious academicians such as Prof. B.P. Adikari, Prof. D.D.Joshi, Prof. V.K.Sethi are among several renowned intellectuals who have served this department.
- (ii) This department is second oldest in Uttar Pradesh and third in North India. Since the inception the thrust has been to study and impart training in statistical applications in various fields, social sciences in particular. In 1977, the department designed the first course in computer applications in the university when there were no computers in the university. The assistance of AMU was taken for arranging practice sessions on their mainframe systems for the statistics. The department has the distinction of installing the first mainframe computer in 1985. Since then the department has been imparting training in computer applications theoretically as well as practically through softwares SPSS and R. The department has equipped computer lab. The department's books are maintained in Institute of Social Sciences library.

Objectives and Aim:

- To teach students how to think statistically, how to apply appropriately useful statistical techniques and how to perform research to advance statistical thinking and practice.
- To conduct original research in statistical theory and its applications, having policy implications.
- To impart professional consultancy of statistics to the research scholars and other related stakeholders of the society.

- Statistical techniques and methods are used in Data Science, Big Data analysis, Machine Learning, Business Intelligence. The department is now planning to take up all these application areas in the form of elective papers in the curriculum of M.Stat. Course.
- The department also looks forward to conduct research activities, seminars, workshop and conferences in Statistical Learning, Data Mining, Machine Learning and other application areas in the forthcoming sessions.
- Department proposes to conduct training programs of SPSS and R for faculty members, research scholars and students and also on Research Methodology for the faculty members.

This department is well known for excellent research and academics and from the very beginning has strived hard for quality teaching and research and have played significant role in the field of spreading the scientific knowledge among the students who are placed in good position in the field of academics, Industry, R&D and in National & International Institute etc. Faculty of this Department up to now have published more than 500 papers in National and International Journals of repute, awarded more than 100 doctorates and 300 M.Phil. Faculty members of the Department are life members of different organizations like Indian Science Congress Association, Kolkata, Indian Chemical Society, Kolkata, Institute of Chemists, Kolkata, Indian Council of Chemists, Agra, National Academy of Sciences etc. Every years many students qualify UGC-CSIR (NET) Examination. The thrust areas of research are in the field of Green chemistry, Coordination chemistry, Environmental chemistry, Macrocyclic chemistry, Polymer chemistry and Nano chemistry. Department is well equipped with instrument like AAS, FT-IR(ATR &KBr) UV-Visible spectrometer, Gas Chromatograph, Microwave Synthesizer, Aerosol Black Carbon detector, GRIMM Aerosol spectrometer, high and low volume air samples etc. The Department has been recognized as FIST(DST) supported (2012-2017). The Department Faculty has carried out many projects sponsored by UGC, CSIR, DST (New Delhi), State Government, DRDO etc.

Objectives and Aim : To provide a broad foundation in chemistry using latest analytical and modern experimental skills require for Higher Education, Scientists in National Laboratories and Chemical Industries

Course Details :

Course Name	Duration	Eligibility	Seats	Fees
Ph.D. Chemistry	As per University Norms	M.Sc. with 55% marks in chemistry (admission through Univ. Entrance Exam)	variable	As per University Norms
M.Sc. Chemistry	2 Years (Four Semesters)	B.Sc. degree with Chemistry as one of the main subject securing at least 45% marks in aggregate	30	Rs. 21935/- per Year
B.Sc.	3 years(Six Semesters) as per NEP 2020	Pass Class XII examination	60	Rs. 7500/- per semester

Achievements : • Workshop on Indoor Air Pollution, Key note Speaker- Prof. Pawel Wargocki, International Center for Indoor Environment & Energy, Technical University of Denmark Copenhagen, Denmark • Workshop on Intellectual Property Rights held on 17th Feb 2023 in Department of Chemistry conducted by IPR Cell Speaker- Ms. Swati Varshney and Mr. Anuj Ashok. • 41st Annual Conference of ICC from 27th December to 29th December in Department of Chemistry(350 participants) • Science, Technology and Emerging Applications of Microscopy, 11-12, November, 2019 (225 participants). • Invited talk by Dr. Young Mee Jung on 22/09/2018, Department of Chemistry, Kangwon National University, South Korea on Advances in TGA/DTA and its applications(70 Participants). • Invited talk by Naval Kishore Sharma (USA), DOW Chemicals on 27/07/2019 on Drug Design(approx. 60 participants). • Invited talk by Dr. Mritunjay (DRDO) on Way and means to collaborate IPR in research and K. Pandey on (DRDO)IPR filing and prosecution, 07/09/2019(80 participants) • Webinar on the Wondrous World of Nanomaterials on 23rd May 2020(Online mode 900 participants) • MSME workshop on Technology based Entrepreneurship Development Programme 22nd Feb - 23rd April 2019(50 participants)

Placement & Job Opportunities : • Students placed as Scientists in National Labs • Students placed in HEI as well as in Schools and Colleges • We have good numbers of placements in Research and Development Labs in Private and Govt. Companies through senior/Alumni and direct placement

Activities : Felicitation of Prof. Pawel Wargocki from Denmark by Hon'ble Vice-Chancellor

Delivering talk during the Workshop on IPR

Award conferred to Distinguished Researcher in the 41st Annual Conference of ICC

About the Department: The Department of Mathematics at Agra University started in 1981 to run M.Phil. program. Later on, M.Sc., M.C.A., Diploma and Certificate courses in Computer Science were introduced. The Department has been supported by National Board for Higher Mathematics. At present, the department is also the Centre of Excellence in Mathematics (U.P. State Govt.). The faculty members are regularly attending seminars/conferences in India and abroad. The Computer Lab of the department is equipped with 15 computers with MATLAB software. All the classrooms have become Smart Class Room with financial support under RUSA. The research areas in the department have been Fluid Mechanics, Operation Research, Reliability Theory, General Topology, Complex Analysis, Bio Mathematics, Mathematical Cryptography and Fuzzy Mathematics. The department has organized several workshops and conferences (including ORSI, IAPS, VPI, Ramanujan Mathematical Society etc.). The Department in its existence of 38 years has produced more than 75 Ph.D. During this period, the faculty members have published more than 400 research articles and completed more than a dozen research projects. The faculty members have also contributed by writing several books (including those for NCERT and UGC) and by Video lectures for UGC classroom project.

Objectives and Aim: • To instil analytical and logical thinking in the students. • To provide quality and value-based education through dedicated faculty members in different fields of mathematical sciences. • To establish itself as a centre of higher learning and training in research.

About the Computer Centre : The University Computer Centre (UCC) was established at Khandari Campus in 1993 by the UGC grant of Rs. 30 lacs. The University Computer Centre is well equipped with latest devices like printers, scanners and 30 computers of latest configuration. UCC is providing facilities for research scholars of all department/Institutions and the computing facilities are available from 10am to 6pm. In 2017, Lab has been upgraded with the computer machine with the latest configuration. Physical infrastructure has also been also renovated in 2017.

Objectives and Aim :

- Establish a unique learning environment to enable the students to face the challenges of the Computer Science field.
- Promote the establishment of centres of excellence in niche technology areas to nurture the spirit of innovation and creativity among faculty and students.
- Provide ethical and value based education by promoting activities addressing the societal needs.
- Enable students to develop skills to solve complex technological problems of current times and also provide a framework for promoting collaborative and multidisciplinary activities.
- To impact theoretical and practical training in advanced areas of computer science and contribute new knowledge through teaching which encourage creativity, insight development and passion for science.
- To developed computer skills in student so that they can be employed implementing video conferencing so that student can learn respective subjects via experts on video lectures.
- To create an academically sound environment that nurtures, motivates and inspires excellence in teaching in computer science along with concern for society.
- To serve the students belonging to the under privileged section by providing them quality higher education and training of skills.

About the Institute : Located in the heart of the city, Seth Padam Chand Jain Institute, department of Management of Dr. Bhimrao Ambedkar University Agra came into existence on 7th March 1992. SPCJIM is well aware with the competitive environment and therefore is focusing on imparting quality education with hand on practical expertise to the students. The institute has transformed hundreds of management aspirants into domestic and global corporate leaders as well.

The Institute stands firm on its three pillars : 1 Quality of Faculty. With vast experience adds in terms of Intellectual Capital 2. Learning Environment - the faculty members are dedicated to the development of its students and the Institute and regularly engage themselves in research and project work. 3. Successful Alumni spread across the globe. SPCJIM's Building bears a contemporary look and comprises the academic block and the entertainment areas. Our aim has been to enhance the facilities manifold and still carry with us the environment of transparency and openness.

It has been especially designed to suit the infrastructure requirements of an academic institute. The facilities are spread over two stories. The academic block consists of spacious lecture halls and classrooms fitted with the latest teaching aids, computer centre a well stocked library and an auditorium cum activity Centre ideal for conducting corporate guest lectures, seminars and various cultural activities for and by the students.

Objectives and Aim : ● To Focus on overall development of the students ● Development of entrepreneurial skills ● To have a regular interaction with the industry for developing technical acumen for our students. ● Skill development for identification and resolving organizational & technological issues. ● Holistic Orientation through better understanding of human values , Culture & Heritage ● Emphasis on learning Indian Ethos for a proper inculcation of sense of belongingness, sincerity and dedication towards work. ● Evolving a work culture characterized by consensus seeking style, team work, empowerment and promoting spirit of enquiry, creativity, innovation and performance excellence

About the Institute : A 25 years of Glorious History, Dau Dayal Institute of Vocational Education runs carrier oriented courses since 1994 is an integral part of Agra University, one of the oldest affiliating University in Northern India since 1927, has vibrating past with/by the contribution of alumni at Global level as leaders, Scientists, Industrialists, Academician, Actors viz. Former President of India Sri Shankar Dayal Sharma, Former Prime Minister Sri Atal Bihari Bajpai, Sri Gulzari Lal Nanda, Sri Chaudhary Charan Singh, Lawyer Sri Motilal Nehru, Film Actor Sri Raj Babber (Ex. Member of Parliament), Sri Manoj Kumar etc. are some stalwarts presently known as Dr Bhimrao Ambedkar University, Agra located in the heart of the CITY OF TAJ at Khandari, Agra.

The demand and scope of vocational training visible as per global scenario is changing dramatically and likely to change fast in future. An initiative was taken by the Founder Director Prof G.C. Sharma and President of Gopal Chand Trust, the Grandson of Late Sri Dau Dayal Agarwal Ji, Dr S.K. Agarwal by providing/contributing handsome donation/Building fund to develop the infrastructure of the Institute in the interest of the youth of this region. The institute established in 1994, imparting education since then, in vocational courses Optical Instrumentation/ Computer Application/Instrumentation (any one subject) along with Maths and Computer papers/ subjects are compulsory. It has been in the hands of international/ nationally recognized academicians/ scientists such as Prof Jai Shanker, Prof. J.C. Upadhyaya, Prof. R.C. Sharma, Prof. H.P. Sinha & Prof. S.C.Upadhyaya.

Objectives and Aim : To provide instructions, teaching and training in higher education, vocational and professional education and make provisions for research, innovation advancement and dissemination of knowledge. To create higher levels of intellectual and innovative abilities. We produced/created thousand of Trained Smart Graduates placed in India and abroad doing extraordinarily well on all platforms and shown huge impact in innovation, creativity, business, scientists, data analytics, academician, administrator, entrepreneur, etc. The excellence in education, research, skill development along with Character Building is our Motto.

About the Department : Zoology Department was established in 1981. Initially, with the teachers of the university, the program was started at Agra College, Agra with Prof. D.P.S. Bhati as Head of Department. The department was shifted to the Institute of Social Science building, Agra University at Paliwal Park campus in 1982. After that, the Department was shifted to the Institute of Basic Sciences building in 1988 at Khandari campus. In 1999, the School of Life Sciences building came into existence and the Department could find its permanent home in School of Life Sciences. Currently, the department is well equipped with the facilities of Air-conditioned smart classrooms, a Library, a Museum, a Laboratory, and research facilities to provide quality education to the students.

Objectives and Aim : The department aims to impart quality education in the subject of Zoology as a basic science and its applied branches to the students. The objectives and aims of the department are given below :

- To provide quality education in Zoology with different specializations.
- To provide a broad multidisciplinary course in Zoology.
- To train students in a wide range of science-based skills that provide the learning base for future careers in disciplines such as environmental management, emerging biotechnologies, publishing, teaching, research, and management.
- To promote training in practical and conceptual skills in sub-disciplines ranging from molecular cell biology, through physiology and Endocrinology, to the study of populations in both an ecological and evolutionary framework.
- To provide quality education offering skill-based programs and motivate the students for self-employment in aquaculture and applied branches of Zoology.
- To provide constructive feedback on their progress, individual students will be assessed throughout the year in their project work, participation in seminars, and written work for supervision.
- To facilitate Higher education & research in zoology.
- To achieve excellence in teaching, research, and extension education in the field of Zoology.
- To provide professional and personal development opportunities through curricular and co-curricular activities.

Course Details :

Course Name	Duration	Eligibility	Seats	Fees
B.Sc.	3 Years	12 th Pass	60	Rs.15000 Per Year
M.Sc. Zoology	2 Years	Graduate (ZBC) with 50% marks	30	Rs. 5735 Per Year

Facilities : The Department has a fully air-conditioned smart classroom that follows different ways of teaching to improve efficiency. It works towards providing a better environment for learning and prioritizes a healthy classroom where the students are interested in learning. Our classroom uses digital teaching methods like videos and audio to improve learning. We also provide some advanced technical methods like using virtual reality for experimenting. These techniques help the students understand the concepts very well and learn about how they can be applied to our daily lives, Air conditioned Library, Museum, Lab Well-equipped, air-conditioned laboratories with various instruments such as Trinocular Research Microscope ●

Micro Centrifuge ● Cooling Centrifuge ● UV Spectrophotometer ● UV Spectrometer ● Colorimeter ● HPLC ● Gas Chromatograph ● Incubator ● Haematology analyzer & CCTV.

Achievements : ● A good number of Research papers published in various international and national journals. ● Faculty members delivered invited lectures on national and international platforms. ● Students got many awards for best research paper presentations at conferences. ● Number of students have cleared CSIR/UGC NET and Uttar Pradesh Higher Election Commission (UPHESC) exam and placed in various research institutes & government colleges.

Placement & Job Opportunities: A zoologist would never subside in India or worldwide because the boundaries of career options in Zoology offered are extensive as mentioned below : ● Academic researcher & teacher ● Companies and Industries ● Scientific writer ● Animal nutritionist ● Environment consultants ● National Parks, wildlife sanctuary ● Wildlife conservationist ● Ecologist ● Entrepreneur

Activities : The department organizes National & International Conference, Workshops and Seminar on regular basis.

About the Department : Department of Botany started in 1990 with teaching in M.Phil. alone. Late Prof. S. V. S. Chauhan (Reproductive Biology) was the founder of the department. Subsequently M.Sc. classes in Botany were started in 1997. Research activities also started with eight Ph.D. students and dissertation work was given to M.Phil. students. The department has a small but good botanical garden (Sur Udyan) along with a newly established botanical garden, a good library contributing as many as 50 journals, and a large number of books mainly donated by teachers and students. Our teachers and students have been participating in National and International seminars and symposia.

Objectives and Aim : ● To create an academically sound environment that nurtures, motivates and inspires excellence in research and teaching in plant sciences. ● To serve the students of underdeveloped societies by providing them the exposure of various flora types of Indian vegetation through excursion. ● To prepare good human being to serve the wider area of the society. ● Rigorous teaching and strong emphasis on research ● To impart theoretical and practical training in advanced area of plant sciences ● To contribute new knowledge through research ● To encourage creativity, insight development and a passion for science

Address : School of Life Science, Dr. Bhimrao Ambedkar University, Khandari Campus, Agra

Email : sharmabswarup@rediffmail.com Contact Number : 9837088318

About the Department : In view of growing concern for environment and in the light of Honourable Supreme Court's directive in this regard, and on the advice and guidelines, for the purpose, provided by the UGC, Dr. Bhimrao Ambedkar University, Agra started the Department of Environmental Studies in 1998 and UGC has given the financial support to the department. The department was established to endeavour for excellence, to attain sustainable development, to instruct guidance for capacity building, to deal with various environmental challenges in an eco-friendly manner. The faculty members of department have exposure of reputed national and international organisations of different specialization and are engaged in extensive research in the different areas of environmental sciences and research work is published in highly reputed national and international journals. The department effectively guides the students throughout the study period and Alumni of the department have been serving in various sectors of environmental services such as government, PSUs and private sector. Department offers professional and job-oriented course curricula, to support research activities and to offer consultancy and extension activities. The department is also providing platform in various dimensions to the students to participate in various cultural, co-curricular activities organized by the department and different cells of the university. Department offers B.Sc.(Faculty of Life Science) Environmental Science as a major subject, M.Sc. and Ph.D. in Environmental Science.

Objectives and Aim : Department of Environmental Studies is established to promote environmental education to prepare specialized human resources generate environmental awareness and aim of the department is to create and maintain excellence in environmental science and contribute knowledge and effort in bringing up rich posterity. The prime objective of the programme is to reach the unreached and help to provide environmental education at the doorstep of the learners. Curriculum has been designed to attract young minds to choose a career in broad areas of Environmental Science and applications.

M.Sc. Environmental Science	2 Years (4 Semester)	a) Bachelor's degree (Three Year) with atleast II division with Chemistry/ Zoology/ Botany/Forestry/Mathematics/Physics/ Environmental Science as one of the subjects. Or (b) Bachelor's degree (Three Year) with at least II division in any one of the following: Biotechnology, Microbiology, Biomedical Science, Biochemistry, Life Science, Biophysics, Forestry, Environmental Science, Geology and Home Science will also be eligible. Or (c) B.Sc. (Honours School) (Three Year) with at least II division in any one of the following: Environmental Science, Biotechnology, Biochemistry, Biophysics, Microbiology, Zoology, Botany, Physics, Forestry, Geology, Home Science and Chemistry will also be eligible. or (d) B.E/ B. Tech. degree in any one Environmental Engineering, Biotechnology Engineering, Civil Engineering and Fire Engineering with 50% marks in aggregate will also be eligible.	30	Rs. 20000/- Per Semester
Ph.D. Environmental Science	As Per University Norms	As Per University Norms	As Per University Norms	As Per University Norms

Facilities : Laboratory with well equipped sophisticated instrument such as Optical Particle Sizer, Cascade Impactor, Atomic Absorption Spectrometer, Ion Chromatograph, Double beam UV, Visible Spectrophotometer, Weather Monitor, Fine particulate Sampler etc. and smart classroom. Regular teaching, in house seminar and hands on experimental experience and training etc.

Achievements : ● Students have qualified National Eligibility Test examination and are perusing their Ph.D. at different institutes of national and international repute. ● Large number of research publication and book chapters in international and national journals of repute. ● Faculty as well as students have presented papers in various national as well as international conference, seminar and workshop. ● Number of student have completed their Ph.D. from the department and doing excellence in their field.

Placement and Job opportunities : Student of the department are placed in various Universities, Government Agency, MNCs, Consultancies, Environmental Laboratories, Pollution Control Boards, and NEERI etc.

Activities : Department celebrate World Environment Day and different day related with environment and department also organized plantation drives and environmental awareness programs regularly. The department platform to the students to participate in various cultural, co-curricular activities organized by the department and different cells of the university such as Youth Fest. Students have created home decorated items made up from plastic waste.

About the Department : The Department was established in 1997 to give a professional degree in Biochemistry aiming to give the education to able students in the range of Dr. Bhimrao Ambedkar University, Agra. Biochemistry is a multi-disciplinary course and various programmes have been developed to meet the growing demand for trained manpower to carry out meaningful biochemistry activity in the country. The program is designed to expose the students to recent exciting developments in the area of Biochemistry/Biomedical Engineering/Biotechnology/ Pharmacological Science /Forensic Science/ Nutrition/ Microbiology/ Bioinformatics/Nanotechnology/Nutraceuticals and their application in industry, agriculture and medicine. The Department is running M.Sc. Course for which the syllabus is based on CBCS as per UGC guidelines introduced New Education Policy 2020.

Objectives and Aim : ● The "Department of Biochemistry" envisions an ambience of excellence, inspiring value-based education, research and development. ● To nurture and sustain academic excellence, programmed to promote innovation, scholarship and abilities to analyze, experiment and synthesize. ● To deliver quality education comparable with the best in class. ● To create effective interface with research institutes of regional/national repute and industry through training programme. ● To develop the facilities for the knowledge enhancement for the students, so they can serve better for the society and nation.

Address : School of Life Science, Dr. Bhimrao Ambedkar University, Khandari Campus, Agra

Email : sharmabswarup@rediffmail.com Contact Number : 9837088318

About the Department : The Department of Biotechnology came into existence in July 1997 under the Faculty of Life Science, Dr. Bhimrao Ambedkar University, Agra.

Vision: To develop as a department of eminence, delivering distinctive learning skills in biotechnology enabling excellence in professional competence and innovation for further betterment of society and mankind. The programme is designed to expose the students to recent exciting developments in the world of Biosciences and their application in Medicine, Industry and Agriculture.

Mission: To provide a quality education in pursuit of knowledge, that establishes a strong foundation for understanding developments in the rapidly advancing field of biotechnology with the development of new biological technologies and therapies through research and education. To provide the nation with trained professional who are able to implement the scientific principles to the continuous improvement of the safe, quality and value biotechnological services and products. To transform into committed professionals with sense of belonging, leadership abilities, team participation, social awareness, human values and ethics.

Objectives and Aim : The Aim of the course is to focus on developing laboratory based research skill in a biotechnological area of choice, while equipping students for a future academic or industry based career.

The Objectives to fulfil the desired aim of the Department of Biotechnology are to : ● Teach, Train and Graduate qualified skill scientists in many disciplines of Biotechnology ● Develop, implement and evaluate the curriculum of Biotechnology program with a strong commitment to be aligned and comply with the National and International Standards of the quality assurance ● Conduct applied research in basic and transnational biotechnology and fosters interactions and collaborations between faculty, researchers and industry ● Promote a supportive learning environment for life through implementing continuous learning program ● Apply the general principles and standards of technology transfer and ensure adequate training of our personnel in modern biotechnology

Department of Microbiology

Dean & Head : Prof. B.S. Sharma

Address : School of Life Science, Dr. Bhimrao Ambedkar University, Khandari Campus, Agra

Email : sharmabswarup@rediffmail.com

Contact Number : 9837088318

About the Department : The scientific subject of 'Microbiology' is one of the most important aspects of modern science. The Department of Microbiology, which is affiliated with Dr. Bhimrao Ambedkar University, Agra came into existence in 1998 under the School of Life Sciences, Khandari Campus and the department adopted the UGC syllabus w.e.f., in July 2001. According to the New Education Policy (NEP) 2020, which was implemented by this University in 2022, the Department of Microbiology constitutes an important section of study in biological science offering undergraduate/postgraduate and Ph.D. levels for professional careers in Microbiology which attracts a large number of students looking at the vast scope of the subject. The department is administered by well-qualified, dedicated and experienced faculty members. A considerable number of research papers are published every year in journals of national and international repute. The department also regularly organizes national-level seminars, conferences and workshops to update the students about the recent developments in the field of Microbiology and related sciences.

Vision : The vision of the department is to gain knowledge in theory, practical aspects of Microbiology and is to be recognized as a pre-eminence department with quality education for both graduate/postgraduate levels and pioneering research for Ph.D. students in order to keep pace with the broad scientific advancement.

Mission : The mission of the Department of Microbiology is to provide an ideal learning environment and a student-friendly atmosphere that allows students to attain successful academic excellence in all aspects of Microbiology and to provide various research and innovation projects in the community.

Objectives and Aim : The ultimate goal of this field is to maintain and grow an interest in Microbiology in order to strengthen research, teaching, and innovation, as well as to engage students in the glories of the microbial world. The objectives are as follows: • Achieve supremacy in higher education, modern technology and scientific research • Facilitate students' competencies and abilities in the different courses of microbiology • Prepare graduate/postgraduate and Ph.D. students with in-depth knowledge and research skills for professional careers in Microbiology • To provide a favourable environment for study and scientific research. • To develop suitable training programs to upgrade the quality of the Department's graduates/postgraduate students. • build highly skilled, experienced and competent microbiologists capable of fostering the nation's development • To motivate the faculties, enrich them with the latest techniques, refresher and orientation courses, Industrial/institutional visits and attending workshops and seminars

About the Department:

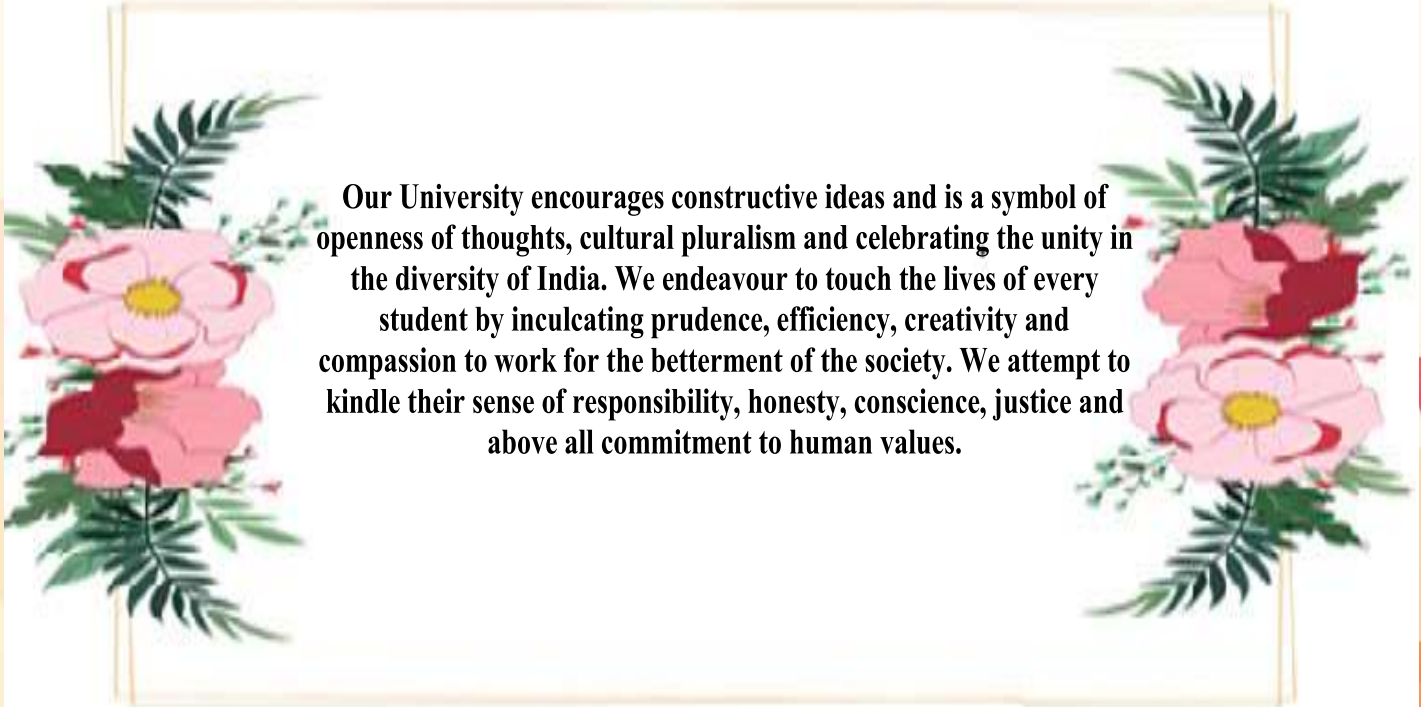

- The Department was established in 1998 to give professional degree in forestry with a objective/ aim to provide education to able student.
- Research , advancement and dissemination of knowledge in the field of forestry and environment. Create consciousness about forests and environment among people through forestry extension programmes.
- Carry out such other activities as may be necessary and desirable to further the safeguarding of the environment and protection of forests and wildlife.
- Furthering the prosecution of research in agriculture and allied sciences.
- It is dedicated for promoting excellence in education and research in Forestry and allied subjects, to cater the need for trained forestry manpower in the country. The syllabi include study of all segments of forestry, wildlife and all natural sciences with a view to providing the students with innovative knowledge and skills. The Department organizes lectures by eminent persons besides workshops, seminars, symposium, and conferences in the field of forestry. Excursions to premier institutes of forestry, plantation areas, natural forest, forest nurseries and forest based industries are the regular features of the curriculum to understand the subject in a better way .

Email : directorietagra@gmail.com Contact Number : 0562-2522622, 2523620

About the Institute : Institute of Engineering and Technology, Agra (IET) is one of the premier and top ranked institute among all technical institutions associated/affiliated to Dr. Bhimrao Ambedkar University, Agra (formerly Agra University), situated Khandari Campus, Agra, Uttar Pradesh. Dr. Bhimrao Ambedkar University, is one among the oldest Universities in India, encompassing a broad range of academic pursuits.

Under graduate students are admitted through UPSEE (Uttar Pradesh State Entrance Examination) on the basis of the rank obtained by the candidate in this examination. IET Agra, campus comprises of Administrative Blocks, Academic Blocks, Girls' Hostels, bank, Centralized Library and nearly 100 residences for Teaching and Non-Teaching staff members. IET Agra, is having a vibrant Alumnus. Our alumni have proved their mettle in the tough grind of the corporate world. Their success could be attributed to the rigor and grit of IET.

Living in a new environment can be a challenging and sometimes daunting experience, especially for young students who are entering the undergraduate college for the first time. Keeping these things in mind, the Institute of Engineering and Technology, Agra, provides all the basic amenities and support facilities on the campus. These facilities are centrally located and are open beyond the normal working hours. All these central facilities are well equipped with the necessary infrastructure.

Vision : To be a leading Institute offering quality technical education, research and preparing technocrats with applicable knowledge for the development of the industry and society.

Mission : ● M1: To introduce quality programs with an updated curriculum in the thrust area of the technology. ● M2: To provide the state-of-the-art infrastructure and employ competent and committed human resource for carrying out teaching and research. ● M3: To create and nurture a conducive environment for teaching-learning using modern tools, research innovation and critical thinking. ● M4: To produce technocrats and entrepreneurs who are responsible, highly skilled, and are adaptable towards the changing needs of industry

Objective & Aim : To keep pace with the changing times, The Institute of Engineering & Technology, which came in to being in the year 1998, has led the University to an era of ultimate techno-creativity & scientific expertise.

I.E.T has been established with the objective to meet the growing demand of technically trained people with strong knowledge of respective discipline of engineering backed with a support of latest IT systems, general management and India mythological views which would enable an engineer to be a perfect executive.

Objective : ● To produce technically competent, quality conscious engineers. ● To develop functionally suitable and conducive environment for students and staff for academic purpose. ● To develop the departments into the center of excellence. ● To develop post graduate centers for all branches. ● To implement Effective & efficient Teaching-Learning practices. ● To increase percentage of campus placements. ● To strengthen industry institute interaction. ● Help students for personality development and career guidance. ● To develop the students and staff to get international Acclamation. ● To develop an e-learning campus.

Aims : The IET Agra provides students with access and exposure to the most current facilities and opportunities in an enriching environment. Each facility provided, be it educational or recreational, compares with the best in the world. Maintenance and upgradation are high priority issues at IET Agra. Internal processes are monitored closely, and are subjected to the most stringent quality criteria. IET takes into consideration the latest and advanced systems, methodologies and practices and provides facilities for case studies, analysis and project exposure. Our future plans are based on our basic goal to incorporate all the latest, advanced systems and technologies prevalent in the developed countries of the world in our curriculum. Consequently, curriculum has the potential to facilitate technical skill development of a very high degree.

Achievements : ● IET Agrā is recognised in the band "PROMISING" under the category "University & Deemed to be University (Govt. & Govt. Aided Technical) in ATAL RANKING OF INSTITUTIONS ON INNOVATION ACHIEVEMENTS (ARIIA) 2021. ● E-Cell, IET, student team participated as Finalists of National Entrepreneurship Challenge by IIT Bombay. ● Student Team "Ashwa" selected as finalist in SMART INDIA HACKATHON 2020. ● A team of students won FIRST PRIZE in the National Hackathon, Hack-Tech at REC, Banda. ● Institute is registered for the Institutional Membership of different societies : 1) Member of Computer Society of India, 2) Life Member of The Institution of Engineers (India), 3) Institutional Member of The Indian Society for Technical Education. ● Faculty & Students have emerged winners in the India Innovation Challenge Design Contest (IICDC) 2019 Conducted by AICTE & DST. ● An Edu-tech Start-Up registered by IET students named "SARTHI". ● Institution's Innovation Council (IIC) at IET Agrā had undertaken various activities under Innovation Cell, Ministry of Human Resource Development (MHRD), Govt. of India, to promote innovation and Startup in campus during the IIC calendar 2018-19 and we have received 4-star rating (highest rating given by MIC in session 2018-19) in that Academic Year.

Placement & Job Opportunities : Institute of Engineering and Technology Agrā has established its Training and Placement Cell to become as a pioneer in today's expeditious world. The students have been provided with the best opportunities and facilities regarding their career. The purpose of the cell is to minimize gap between institute and industry. The Training and Placement Cell of IET is a faculty and student coordinated body that embodies the philosophy of providing placements opportunity for all the students.

IET Agrā and Internshala Partnership : ● Total 1173 students of IET have been registered on Internshala portal. Till now 70 students got their internship opportunity through their portal.

IET Agrā and AICTE Internship Portal : ● AICTE with association with NEAT team, developed their internship portal, where more than 300 certified and authentic companies including your dream company, regularly keep posting their requirements for interns. ● Total 220 students of IET Agrā have successfully registered themselves on AICTE Internship Portal <https://internship.aicte-india.org/>

The training and placement cell at IET facilitate all the placement-related activities. In the past, T&P cell had welcomed prominent recruiters like Infosys, Wipro, Tata consultancy services, Pie Infocomm and various others. Each year, the placement process is initiated in the month of July and goes up till July of the following year.

Activities :

- 1. TREE PLANTATION - (20 AUGUST 2022) :** The tree plantation programme was organized by the Institute of Engineering and Technology, Dr. B.R. Ambedkar University, Khandari, Agrā on 20 August 2022 to mark the celebration of "Azadi Ka Amrit Mahotsav" to commemorate the country's 75 years of independence.
- 2. BALIKA SURAKSHA OATH PROGRAMME AT IET (24 AUGUST 2022) :** The 'balika suraksha shapath' was organized by the Institute of Engineering and Technology, Dr. B.R. Ambedkar University, Khandari, Agrā on 24th August 2022 to spread awareness in society on the issue of girls' safety. Girls will take oath to create and spread awareness about their rights, while boys will take oath to ensure the safety of girls and respect them. Parents will also be administered an oath to not discriminate among their children on the basis of gender. Whether a son or a daughter, they must give all their children equal opportunities.

About the Department : In 1989, PGDCA course was started in Department of Statistic & Computer Application. In 1994, MCA Course was introduced in Department of Mathematics & Computer Science. In 1997, M.Sc. (CS) was introduced in Department of Statistic & Computer Application. In 2004, new Institute was reconstructed with all the above courses (MCA, PGDCA, M.Sc. (CS), B.Sc. (IS), M.Sc. (IT) and MCM) and name of this Institute was ICIS (Institute of Information and Computer Science).

Keeping in mind, the better utilization of the resources academically, administratively and financially. University constituted a restructuring Committee for the Department. The Committee had recommended the courses, which are similar in nature, should be run under one Umbrella. In this spirit, The Executive Council had attached the Department of Computer Science with Institute of Engineering & Technology in the year 2011.

Objectives and Aim : To provide industry and research oriented quality education to our students and train them to apply this knowledge for solving real world problems and make them competitive in the ever-changing and challenging global work environment. To produce trained computer professionals who can successfully meet the demands of academia, IT Industry and research by building a strong teaching and research environment.

About the Department : The Department of History & Culture was established in the year 1985 with M. A. and M.Phil Course in Paliwal Park Campus, Agra. In the year 2000 P.G. Diploma in Archival Studies and Museology, P.G. Diploma in Hotel Management, and Gandhian Study Center were started. Professor Pratima Asthana was the founder Head of this department. Professor A.K. Singh, Professor Sugam Anand and Professor Anil Verma have been the Head of the Department and Professor B.D. Shukla is presently the Head.

Studying history allows us to observe and understand how people and societies behaved. For example, we are able to evaluate war, even when a nation is at peace, by looking back at previous events. History provides us with the data that is used to create laws, or theories about various aspects of society. To study history is to study change: Historians are experts in examining and interpreting human identities and transformations of societies and civilizations over time. They use a range of methods and analytical tools to answer questions about the past and to reconstruct the diversity of past human experience: how profoundly people have differed in their ideas, institutions, and cultural practices; how widely their experiences have varied by time and place, and the ways they have struggled while inhabiting a shared world. Historians use a wide range of sources to weave individual lives and collective actions into narratives that bring critical perspectives on both our past and our present. Studying history helps us understand and grapple with complex questions and dilemmas by examining how the past has shaped (and continues to shape) global, national, and local relationships between societies and people. History is the mirror which reflects the entire mankind. It helps us in learning not only about the past but also it helps us to learn about our mistakes and give solution to overcome them and move forward. We can say that History is very important subject in human life. It is also useful for competitive examination, because in every competitive examination, more than 30% questions, are concerned with History subject. So for study purpose it is more preferable for P.G. students.

Objectives and Aim : • To provide quality Education • To research in different fields of vital importance.

About Shodh Peeth : Pandit Deendayal Upadhyay Shodh Peeth was founded within Dr. Bhimrao Ambedkar University in 2018. The primary objective behind establishing the Shodh Peeth was to disseminate knowledge about the life and contributions of Pandit Deendayal Upadhyay, as it holds great relevance in today's fragmented society. The philosophy of Integral Humanism advocated by Pandit Deendayal Upadhyay becomes particularly significant when the global focus leans towards individual satisfaction maximization rather than group satisfaction maximization. The Shodh Peeth aims to foster harmony and ethical values within society, contributing to its holistic and sustainable development.

Objectives & Aim : The institute strives to fulfill its mission and vision by conducting regular seminars and conferences that explore the essence of integral humanism, Jana Rajya, and Dharma Rajya. It remains dedicated to continuous research into the life and philosophy of Pandit Deendayal Upadhyaya.

The institute aims to instill a sense of pride in our heritage, promote universal education, achieve societal equity, enhance social harmony, envision sustainable development, eliminate hunger, eradicate poverty, and cultivate a society grounded in high moral and ethical values.

पीठ का उद्देश्य व दृष्टि : गांधी अध्ययन पीठ का उद्देश्य समाज में गांधी जी के विचारों का प्रचार-प्रसार करने के साथ ही समाज में बंधुत्व एवं भाईचारे की स्थापना करना है। वास्तव में यह भी जानना प्रासंगिक है कि गांधी जी के विचार समाज द्वारा कितना आत्मसात् किये गये हैं? इसके लिए गांधी अध्ययन पीठ समय-समय पर विभिन्न शीर्षकों के माध्यम से अनुसंधान करायेगी। समाज में गांधी जी के विचारों के प्रति लोगों को जागरूक किया जायेगा। वास्तव में जो समाज अपने इतिहास को भुला देता है वह बहुत कठिन दौर से गुजरता है तथा इतिहास से सीख भी नहीं प्राप्त कर पाता है। गांधी अध्ययन पीठ के माध्यम से यह प्रयास किया जायेगा कि समाज में जो तरुणाई (युवा वर्ग) समाज को नई दिशा प्रदान करने के लिए तत्पर है वह गांधी जी के इतिहास एवं दर्शन को अवश्य जाने व गांधी जी के विचारों से ओतप्रोत होकर ही समाज को दिशा प्रदान करे। इस हेतु गांधी अध्ययन पीठ गांधी जी के द्वारा समाज को जो दिशा प्रदान की गई थी एवं स्वदेशी का जो नारा दिया गया था उसके बारे में प्रचार-प्रसार विभिन्न माध्यमों से करने का प्रयास किया जायेगा।

गांधी अध्ययन पीठ के माध्यम से समय-समय पर विचारगोष्ठी, सेमिनार एवं कार्यशालाओं का आयोजन किया जायेगा जिससे समाज में लोगों को गांधी जी के विचारों को अधिक से अधिक प्रसारित किया जा सके। गांधी जी के विचार आज भी प्रासंगिक हैं, यदि उनके विचारों का अनुपालन व्यक्तियों द्वारा किया जाये तो समाज विकासोन्मुख अवश्य होगा तथा समाज एवं विश्व में शांति होगी।

गांधी अध्ययन पीठ के माध्यम से विभिन्न प्रकार के कोर्स खोले जायेंगे जो गांधी जी के जीवन एवं विचारों से संबंधित होंगे। विद्यार्थी उन कोर्सों में अध्ययन कर गांधी जी के जीवन दर्शन एवं सिद्धांतों की जानकारी प्राप्त कर सकेंगे एवं समाज में प्रचारित कर सकेंगे। गांधी जी के विचार लोगों के कल्याण के लिए थे। अतः गांधी अध्ययन केन्द्र यह प्रयास करेगा कि समाज में घटित होने वाली समसामयिक घटनाओं का अध्ययन किया जाये। इसके लिए यह केन्द्र समय-समय पर शोध कार्यशालाओं का आयोजन करेगा। यह प्रयास किया जायेगा कि यह केन्द्र समाज को विश्वबंधुत्व एवं भाईचारे की प्रेरणा प्रदान करे। इस ध्येय को पूरा करने के लिए अंतर्राष्ट्रीय संगोष्ठियों का भी आयोजन किया जायेगा। समय-समय पर गांधी जी जीवन दर्शन एवं उनकी कृतियों के बारे में विद्वतजनों से लेख मांगे जायेंगे जिनका प्रकाशन पुस्तक के रूप में किया जायेगा।

Dr. Bhimrao Ram ji Ambedkar (1891-1956), fondly known as Babasaheb, is one of the most illustrious sons of India and a great National Leader. He is considered the champion for the Dalit cause, an erudite scholar, extraordinary statesman, and a visionary who contributed greatly to the building of the modern India. Dr. Ambedkar left an indelible impression in the history of India as a 'messiah' who unfettered the oppressed masses and secured human rights for millions of weaker and oppressed classes that were path-breaking in its essence and strived towards the monumental endeavours of freedom. He was the chief architect of the Constitution of India, wherein Babasaheb left emancipatory provisions for the justice and empowerment of the oppressed classes. He symbolised the struggle for justice and empowerment of the weaker and downtrodden population in India and laid the foundation stones of building a just society. Babasaheb's ground breaking ideas led to the formation of the Reserve Bank of India during British rule. As a labour leader, he promoted the revolutionary idea of 'fair condition of life of labour' as opposed to 'condition of work', which provided the outline of the future labour laws in India. Babasaheb was also a champion of the cause of gender parity. He initiated reforms for lessening working hours to 48 hours per week, removed the ban of engaging women in various forms of employment, and coded the principle of 'equal pay for equal work' irrespective of gender. His idea of the Hindu Code Bill was of emancipatory nature. Babasaheb also left a lasting impression as a social reformer through his role in the movements like Mahad Satyagraha, the Anti-Khoti movement, and the Dalit Buddhist movement.

The Dr. Bhimrao Ambedkar Pith (Chair) was established in the year 1997 by the U.P. Govt. (Letter No. 2063/15 Dated 19.06.1997) for achieving the following objectives.

Objectives : 1. To provide well-equipped centre of learning to intellectuals, academicians and students to undertake studies and research with an intention to understand, assess and disseminate ideas and thoughts of Dr. Bhimrao Ambedkar particularly on subjects like Economics, Political Science, Religion, Philosophy, Constitutional Studies, Education, Social Work, Human Rights as well as other disciplines considered relevant for attainment of our National Goal of Social Justice and Empowerment. 2. To conduct research and higher studies vis-à-vis the socio-economic and cultural life as well as the biological aspects of the marginalized/oppressed groups or backward classes or weaker sections of the society.

Functions: 1. To serve as centre of learning and research not only on the subjects concerning Dr. Ambedkar's Works and Philosophy, but also on the issues concerning the socio-economic and cultural life of Scheduled Castes, Scheduled Tribes, Minorities, Backward Classes and other Weaker Sections of the Society. 2.

To conduct research on the present and past of the deprived people, teaching and organizing lectures, seminars, symposia, workshops, and other similar academic activities. 3. To engage in field research work relating to the contemporary problems and issues concern SC/ST/Minority/Weaker Sections/Women/Transgender etc. 4. To supervise doctoral and post-doctoral students in research in accordance with the thrust areas of the Chair. 5. To coordinate and to provide a think tank on the thrust areas of the Chair, drawing expertise and inputs from academic experts from other sectors like Government and other Nationals / International NGOs.

Surdas was a 16th-century blind Hindu devotional poet and singer, who was known for his works written in praise of the deity Krishna. He was a Vaishnava devotee of Krishna, and he was also a revered poet and singer. His compositions glorified and captured his devotion towards Krishna. Most of his poems were written in the Braj language, while some were also written in other dialects of medieval Hindi, like Awadhi.

There are many theories about Surdas, but most popularly, he is said to have been blind from birth. During his time, lived another saint by the name of Vallabha. Vallabha was the founder of the Pushtimarg Sampradaya, and his successor, Vitthalanatha, had selected eight poets who would help him to further spread the glory of Krishna, by composing works of music. These eight poets were known as the "Astachap", and Surdas is believed to be the foremost among them due to his outstanding devotion and poetic talent.

Surdas is best known for his composition the Sur Sagar. The book Sur Sagar (Sur's Ocean) is traditionally attributed to Surdas. However, many of the poems in the book seem to be written by later poets in Sur's name. The Sur Sagar in its present form focuses on descriptions of Krishna as the lovely child of Gokul and Vraj, written from the gopis' perspective.

Purpose of the Surpeeth: keeping in view the treasure of Sur compositions in Hindi Literature Surpeeth was established to conduct research in various perspectives on the work of Surdas to preserve and cultivate Brajbhasha in the work of Sur creations and ancient Indian Hindi Literature.

Scope: It opens the scope for the researchers to work on different aspects of Surdas' work. Surpeeth, thus, provides the scope for researches, conferences, seminars and workshops with reference to the work of Surdas from poetic, literary and linguistics point of views.

The Internal Quality Assurance Cell

Director : Prof. Sanjeev Kumar

Address: Department of Mathematics, Institute of Basic Sciences, Khandari Campus, Agra

Email : iqacdbrau@gmail.com Contact Number : +91 8126875760

About the IQAC: Welcome to the Internal Quality Assurance Cell of DBRAU Agra. The University Grant Commission (UGC) has started the National Assessment and Accreditation Council (NAAC) to evaluate and accredit higher education in universities and colleges. Further, the NAAC has advised creating the Internal Quality Assurance Cell (IQAC) to improve and maintain quality in higher education and sustained academic achievement. An IQAC-guided framework can help create education-quality practices. Thus, the Internal Quality Assurance Cell (IQAC) of DBRAU handles NAAC quality assurance and accreditation problems and undergoes AQAR review for re-accreditation. Educational institutions are evaluated using cumulative grade point average (GPA) and the grading will be used on the seven criteria.

The institutions are graded as per the scores achieved in these seven criteria. The latest grading scheme followed by NAAC are A++ A+, B++, B+, B, C.

DBRAU established its Internal Quality Assurance Cell (IQAC) after accreditation to maintain quality standards in accordance with the National Action Plan, which evaluates, assesses, accredits, and improves higher education institutions (HEIs). After accreditation, the IQAC of DBRAU implemented the policy guideline of the University Grants Commission (UGC) of India to ensure and sustain quality in the University. IQAC assesses, accredits, and improves these institutions. The IQAC will be integrated within the institution to achieve quality improvement goals. The IQAC's main goal is to create a systematic, consistent, and catalytic framework for improving institutional performance. The IQAC is projected to greatly improve post-accreditation educational institutions. After accreditation, the IQAC will guide an educational institution's academic excellence efforts. The IQAC oversees quality management by introducing novel techniques that improve quality and using intervention tactics to monitor their implementation. The IQAC ensures that the institution honours its obligations to all stakeholders, with an emphasis on funding agencies and society. The IQAC strives to develop and sustain quality standards. This research assesses the tactics and procedures used to provide high-quality education and how well each task is completed. The Internal Quality Assurance Cell (IQAC) will be integrated into the institutional structure to achieve quality enhancement and sustainability goals.

Aim of IQAC : The main objective of the IQAC is to develop a system for conscious, consistent and catalytic action to improve the academic and administrative performance of the institution.

Strategies : IQAC will develop systems: ● To prompt, effective, and forward-looking execution of academic, administrative, and financial responsibilities. ● For the significance and excellence of academic and research programs. ● Ensuring fair and accessible opportunities for individuals from diverse segments of society to pursue academic programs at an affordable cost. ● For the optimization and integration of contemporary pedagogical approaches and educational practices. ● For the assessment of the reliability and validity of evaluation procedures. ● ensuring the sufficiency, upkeep, and operational effectiveness of the support structure and services. ● With the objective, to explore opportunities for research collaboration and networking with various academic institutions in both domestic and international settings, specifically in India. ● With the objective of effectively promote and executing measures aimed at enhancing quality improvement in key performance areas through deliberate interventions and strategies. ● In order to establish a consistent approach and framework for all quality initiatives, it is necessary to develop a standardized procedure and methodology. ● In order to facilitate the organization and documentation of all quality initiatives, as well as to ensure their efficient implementation.

Activities : IQAC is continuously organising seminars, workshop for the enhancement of quality education for the development of its stakeholders. IQAC also working for the implementation of NEP in the university.

About the Anti Raging Cell : Ragging is an act, which is likely to cause insult or annoyance or fear or apprehension or threat or intimidation or outrage of modesty or injury to students. This is a heinous crime, which is uncivilized and demonic. Ragging is prohibited within or outside the educational institutions.

The All India Council for Technical Education (AICTE), New Delhi vide its Notification no. 37-3/Legal/AICTE/2009 dated 25-03-2009 has taken a very serious view of ragging incidences in educational institutions and on Directions of the Hon'ble Supreme Court of India vide its Order dated 16.5.2007 has ordered strict implementation of rules & regulations for Prevention and prohibition of Ragging in technical Institutions.

Objectives and Aim :

1. To prevent any conduct by any student or students whether by words spoken or written or by an act which has the effect of teasing, treating or handling with rudeness a fresher or any other student.
2. To Prevent indulging in rowdy or undisciplined activities by any student or students which causes or is likely to cause annoyance, hardship, physical or psychological harm or to raise fear or apprehension thereof in any fresher or any other student.
3. To Prevent asking any student to do any act which such student will not in the ordinary course do and which has the effect of causing or generating a sense of shame, or torment or embarrassment so as to adversely affect the physique or psyche of such fresher or any other student.
4. To monitor any act by a senior student that prevents, disrupts or disturbs the regular academic activity of any other student or a fresher.
5. To prevent exploiting the services of a fresher or any other student for completing the academic tasks assigned to an individual or a group of students.
6. To prohibit any act of financial extortion or forceful expenditure burden put on a fresher or any other student by students.
7. To prevent any act of physical abuse causing bodily harm or any other danger to health or person.
8. To prevent any act or abuse by spoken words, emails, posts, public insults which would also include deriving perverted pleasure, vicarious or sadistic thrill from actively or passively participating in the discomfiture to fresher or any other student.
9. To prevent any act that affects the mental health and self-confidence of a fresher or any other student with or without an intent to derive a sadistic pleasure or showing off power, authority or superiority by a student over any fresher or any other student.

Policy :

1. The students may feel free to put up a grievance in writing/or Email to Anti Ragging Cell Incharge.
2. The Anti Ragging Cell will act upon those cases which have been forwarded along with the necessary documents.
3. The Anti Ragging Cell will assure that the grievance has been properly solved in a stipulated time limit provided by the cell.

Activities :

- It shall be the duty of the Anti-Ragging Cell/Committee to ensure compliance with the provisions of any law for the time being in force concerning ragging; and also, to monitor and oversee the performance of the Anti-Ragging Squad in prevention of ragging in the institution.
- Anti-Ragging Squad: It shall be the duty of the Anti-Ragging Squad to be called upon to make surprise raids on colleges, hostels, canteens and other places vulnerable to incidents and having the potential for ragging and shall be empowered to inspect such places.
- It shall also be the duty of the Anti-Ragging Squad to conduct an on-the-spot enquiry into any incidents of ragging referred to it by the Head of the institution or any member of the faculty or any member of the staff or any student or any parent or guardian or any employee of a service provider or by any other person, as the case may be; and the enquiry report along with recommendations shall be submitted to the Anti-Ragging Committee for action. Provided that the Anti-Ragging Squad shall conduct such enquiry observing a fair and transparent procedure and the principles of natural justice and after giving adequate opportunity to the student or students accused of ragging and other witnesses to place before it the facts, documents and views concerning the incidents of ragging, and considerations such other relevant information as may be required.

About the National Service Scheme : The National Service Scheme is a value based youth programme aimed at developing the personality of our educated youth by involving them in community development during their leisure hours. The NSS is sponsored by the Ministry of Youth Affairs and Sports, Government of India. The community service rendered by university students has covered several aspects like adoption of villages & Urban slums for intensive development work, carrying out the medico-social surveys, setting up of medical centres, programmes of mass immunization, sanitation drives, adult education programmes for the weaker sections of the community, blood donation, helping patients in hospitals, helping inmates of orphanages and the physically handicapped etc. NSS volunteers rendered commendable relief work during natural calamities/emergencies such as cyclones, floods, development of scientific temper famine, earthquake, etc from time to time all over the country. The NSS students have also done useful work in organising campaigns for eradication of social evils, and popularization of the nationally accepted objectives like nationalism, democracy, social harmony and development of scientific temper. Dr. Bhimrao Ambedkar university, carries rightly the pride for having been one of the pioneering institution in implementing the NSS. At present university residential wing has three units. Each unit having 100 volunteers.

1. Institute of Engineering and Technology, Khandari Campus, 2. Dau Dayal Institute of Vocation Education, 3. Institute of Home Sciences

Motto : The Motto of NSS "Not Me But You", reflects the essence of democratic living and upholds the need for self-less service. NSS helps the students development & appreciation to other person's point of view and also show consideration towards other living beings. The philosophy of the NSS is a good doctrine in this motto, which underlines on the belief that the welfare of an individual is ultimately dependent on the welfare of the society as a whole and therefore, the NSS volunteers shall strive for the well-being of the society.

NSS Logo : The logo for the NSS has been based on the giant Rath Wheel of the world famous Konark Sun Temple (The Black Pagoda) situated in Orissa, India. The Red & Blue colours contained in the logo motivate the NSS Volunteers to be active & energetic for the nation-building social activities. The wheel portrays the cycle of creation, preservation and release and signifies the movement in life across time and space, the wheel thus stands for continuity as well as change and implies the continuous striving of NSS for social change.

NSS Badge : The NSS logo is embossed on the badge of NSS. The eight bars in the wheel of NSS logo represent the 24 hours of a day. The red colour indicates that the volunteer is full of young blood that is lively, active, energetic and full of high spirit. The Navy blue colour indicates the cosmos of which the NSS is tiny part, ready to contribute its share for the welfare of the mankind.

Objectives of NSS :

- Understand the community in which they work
- Understand themselves in relation to their community
- Identify the needs and problems of the community and involve them in problem-solving
- Develop among themselves a sense of social and civic responsibility
- Acquire leadership qualities and democratic attitudes
- Practise national integration and social harmony.

Human Values Cell

Coordinator : Dr. Swati Mathur

Address : SPCJIM, Dr. Bhimrao Ambedkar University, Khandari Campus, Agra

Email : spcjim@yahoo.com Contact Number : 9412263433

In pursuance of the National Education Policy (NEP 2020) which lays emphasis on developing a holistic perspective of life with emphasis on individual, family, society and Nature, the Hon'ble Vice Chancellor Prof. Ashu Rani has established a Universal Human Values Cell in the University. The Nodal Centre for Human Values Cell is Seth Padam Chand Jain Institute of Management, Khandari, Agra

As a commitment to inculcate values amongst the students, Universal Human Values cell has initiated workshops to create the understanding of basic human aspirations and its fulfillment through right understanding. Facilitators like Dr. Upasana Misra, Dr. Yudhishtar Singh enlightened the faculty members and the students about the basic and actual understanding of self. These faculty members will further deliver the basic value education to students in order to develop human value among them.

Since its formation in January 2023, the Universal Human Values Cell has successfully completed AICTE initiated Universal Human Values-I workshops with 15 Faculty members. In addition, 04 faculties have also completed Universal Human Values-II workshop successfully.

As a primary initiative the course was introduced in the Engineering Department of the University in the year 2019. The course is being offered as a compulsory program for all the streams of the department. Since its inception approximately 600 students have been benefitted. As the result have been very inspiring and fruitful, in near future the university is also planning to incorporate Universal Human Values as a compulsory paper in all other UG and PG programs as well.

About the Cell:

Cyber Hygiene Cell : Cyber Hygiene Cell is set up in Dr. Bhimrao Ambedkar University, Agra in September 2022. In which students are engaged for regular participation in their learning's and along with taking necessary safeguards in cyber space. One of the key actions to set up Cyber Hygiene Cell is preventing cybercrime and is to generate sustained awareness among public, especially among the students of colleges on mass awareness for prevention of cybercrime. It's also proposed that a reward scheme for giving Scholar Badge to the meritorious students involved in dissemination of information for prevention of cybercrime may also be explored for commencement in all the state boards and universities. In Cyber club (Cell) following activities held on time to time awareness for prevention of cybercrimes through workshops, seminars, interactive sessions, quiz competitions, best practices, case studies, creative sessions, poster making, essay writing, etc.

Objectives of Cell:

- To create awareness for prevention of cybercrimes through workshops, seminars, interactive sessions, quiz competitions, best practices, case studies, creative sessions, poster making, essay writing, etc. at regular intervals.
- Install and maintain up to date antivirus software and be alert to unusual activities or problems.

What is Cyber Hygiene : Cyber hygiene is a reference to the practices and steps that users of computers and other devices take to maintain system health and improve online security. These practices are often part of a routine to ensure the safety of identity and other details that could be stolen or corrupted. Much like physical hygiene, cyber hygiene is regularly conducted to ward off natural deterioration and common threats.

Benefits of Cyber Hygiene : Having a routine cyber hygiene procedure in place for your computers and software is beneficial for two distinct reasons - maintenance and security.

Maintenance is necessary for computers and software to run at peak efficiency. Files become fragmented and programs become outdated, increasing the risk of vulnerabilities. Routines that include maintenance are likely to spot many of these issues early and prevent serious issues from occurring. A system that is well-maintained is less likely to be vulnerable to cyber security risks.

Security is perhaps the most important reason to incorporate a cyber-hygiene routine. Hackers, identity thieves, advanced viruses, and intelligent malware are all part of the hostile threat landscape. While predicting threats can be challenging, preparing and preventing them becomes feasible with sound cyber hygiene practices.

Activities :

About the Public Relation Cell : The PRO committee was established to manage communication by reporting events and activities at university, publicising accomplishments of faculty and student community, and updating university performance on various social media network.

Objectives : The primary objectives of the committee are: ● Planning, developing and implementing PRO strategies ● Maintaining an informed list of News media for reference ● Writing, editing and releasing university news to media ● To keep a record of all published date-wise university news ● To provide widespread publicity and to monitor University's social media news ● Publicising the achievements and professional Skills of the faculty and students.

Print and Digital Media: The committee sends date wise university news and press releases to print and digital media. The team is extensively vigilant and experienced in writing, editing and publishing the day-to-day activities through the internal and external media support, and the team also keeps the records of all the published data for the reference.

Social media promotions: Media committee maintains the public relations through the use of the prevalent communication i.e., social networking sites. The team releases the updates on social media about all campus activities and regular updates of academic and administrative departments. The committee also establishes the prominent means of communication through university community Radio 90.4 "Agra Ki Awaz". The community radio aims on broadcasting educational programmes and promotes innovations and ideas amongst the students.

Alumni Cell

Address : Sanskriti Bhava, Civil Line Campus, Bagh Farzana, Dr. Bhimrao Ambedkar University, Agra-282003

Email : mlavkush@yahoo.com

Contact Number : 9412256938

About the Alumni Cell : Alumni are great role models for current students and are often well placed to offer practical support to the students as they start their career. They are the most loyal and generous supporters of an institutions. Alumni can build business connections, organize reunions and serve as shining examples of the kind of people that their institution produces. It's very useful for those who are genuinely interested in the lives of their old classmates and how they are placed in society.

Objectives and Aim : • To develop goals and co-ordinate the efforts aimed to their accomplishment; • To promote cultural academic and literary advancement of its members. • To arrange and conduct meetings of the alumni. • To encourage alumni and friends of the institutions to generously support the Institution • To conduct appropriate activities to accomplish the above objectives and purposes. • To promote and encourage a continuing interest in and loyalty to the institutions • To provide a standardized organizational structure and co-ordinate programme for alumni chapters.

Role of Alumni Cell : • To promote general welfare of the institution. • To support the parent organization's goal.

Activities :

Lokpal Office

Lokpal : Prof. Sugam Anand

Address : Dr. Bhimrao Ambedkar University, Paliwal Park Campus, Agra

Email : sugam11@yahoo.co.in

Contact Number : 9319105821

About the Lokpal : The Lokpal appointed in the University as per the Gazette notification on "University Grants Commission (Redressal of Grievances of Students) Regulations, 2023," notified on April 11 stated that each university shall appoint an Lokpal for redressal of grievances of students at the University.

Objectives of Lokpal : To provide opportunities for redressal of certain grievances of students already enrolled in any institution, as well as those seeking admission to such institutions, and a mechanism thereto.

It shall hear appeals from an aggrieved student, only after the student has availed all other remedies provided under the regulations. A Student's Grievance Redressal Committee will also function to solve the problems of the students.

The Student Community

The Students Campus Life

As a student of Dr. Bhimrao Ambedkar University Agra, you will belong to one of the premier Universities in the country. Each Institute and Department has its own distinctive identity, you will be faced with many challenges - on and off academics. We hope the University life will enrich your ways of thinking and perception in life.

University life can be fun, the more active you are with the programs and activities organized in the campus, the more experiences you will gain. The campus life is safe, quiet and peaceful.

Exchange of thoughts and ideas between students, researcher and the faculty is prevalent. Event planning and coordination of programs such as the seminars, conferences and workshops conducted by different departments are taken up by students and Research scholars. University life can be the best years of your life, discovering and enjoying yourself while working hard and confronting many unexpected challenges. We hope Dr. Bhimrao Ambedkar University can offer the experience you need to face life's challenges.

Health Activities In The University

Good Health is an asset for individuals, their communities and the nation at large. Numerous studies have shown that healthier students tend to perform better. In view of this the University made time for physical activities like sports, yoga, meditation, etc. as well as health-check-up camps as an investment in higher academic performance of the students.

Awareness Programs and Plantation

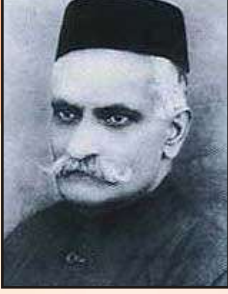

A public awareness and education programs is a way to bring a certain issue to the attention of a group of people. This type of programs by the students can take many forms, ranging from a rally, photography, poster contest, plantation, Plastic ban campaign, etc at local or on University radio station. A public awareness and education program is a great way to highlight the need for better human beings in the community. The important thing is to get key prevention information out to your target audience (youth, adults, or children) and encourage them to take action in preventing or reducing pollution and plantation.

Study Tour

Dr. Bhimrao Ambedkar University conducts study tour to provide its students with educational and cultural experiences as syllabus specified trips by different department and general tours for an exposure in their area of study.
