Prime Minister

New Delhi
17th July 2022

My Dear POOJA Ji,

With your active participation, India has scripted history, yet again!

Our journey of Covid Vaccination started on 16th January 2021 and on 17th July 2022, we reached another significant milestone. It was a memorable day for the country as we completed administering 200 crore vaccine doses, an outstanding achievement in our fight against Covid-19.

Saving lives is crucial, especially during a once-in-a-century global pandemic. Our vaccinators, healthcare workers, healthcare support staff and frontline workers have played a critical role in protecting Indians. This is a laudable example of dedication to duty and delivering when it is most necessary.

From the coldest mountains to the hottest deserts, from faraway villages to dense forests, the Covid-19 Vaccination Programme has left none behind and showed that New India excels in last mile delivery. The scale and speed that India imparted to the world's largest vaccination programme have been spectacular and this has happened due to the efforts of people like you.

On this historic occasion, I applaud your contribution to India's COVID-19 Vaccination Programme and appreciate you for being at the forefront of such a crucial, life-saving mission.

The achievement of 200 crore vaccine doses showcases the strength of the democratic, compassionate and service-oriented ethos of our Nation. The story of India's courage to deliver during a crisis will be cherished by generations to come.

My best wishes to you and your family!

Jai Hind!

Yours Sincerely

(Narendra Modi)
