

Annexure I

Minutes of Board of Study on 26/04/2022

Minutes of the meeting of Board of Study of Institute of Home Science held on 26 April 2022 at 12 pm, Institute of Home Science, Khandari, Agra

The following members were present in the meeting

1. Prof. Achla Gakkhar Dean & Director, IHS, Agra (Member)
2. Dr. Archana Singh Associate Professor, IHS, Agra (Member)
3. Dr. Sanghmitra Gautam Assistant Professor, IHS, Agra (Member)
4. Dr. Saleem Javed Assistant Professor, IHS, Agra (Member)
5. Professor Archana Kapoor Retd. Dean, Emeritus Prof, DEI, Agra (Expert)

6. Dr. Nitu Singh (Subject Expert) Associate Prof. & HOD Home Science, Hemvati Nandan Bahuguna Govt PG College Naini Prayagraj (Expert)

7. Dr. Madhulika Gautam, (Subject Expert) Associate Professor, DEI, Agra (Expert)
8. Dr. Richa Verma (Subject Expert) Assistant Professor, DEI, Agra (Expert)

Meeting started with welcoming of the members by the Director. The following issues were considered and discussed in the meeting as per the recommendations of Academic Committee of Institute of Home Science held on 19/04/2022. The Board confirmed the following issues.

1. Board suggested not to introduce B.A Home Science program as Institute is already offering a valuable degree of B.Sc. Home Science with same eligibility criteria for admission similar course structure with low fee.
In addition to this 50% of B.Sc. Home science seats are lying vacant in since few years, so instead of starting a new bachelor's degree with similar course, focus should be on filling up the seats of existing bachelor's degree (B. Sc. Home Science).
It is recommended the authorities may consider it launching of B.A course in self finance, on view of its less sustainability.
2. Board recommended to start with M.A Home Science (under self finance scheme) from next coming session, i.e 2022-2023 with minimum eligibility criteria of 50% for general/OBC and 45% for SC/ST categories. At graduation level candidates having Home Science as one of the subjects will be eligible to take admission in the M.A. Home Science in the Institute. Fee structure is enclosed. Number of seats are 50. The course will not run if the candidates are less than 20.
3. Board revised the syllabus of M.Sc. Home Science (General, Group A, B, & E) as per the norms of NEP 2020.

4. Minor subject will be selected from other Institute/Faculty viz Faculty of Computer Science, Faculty of Management, Faculty of Linguistic and Basic Science
5. Board recommended starting PG diploma in Nutrition & Dietetics from coming session 2022-2023 (Syllabus enclosed).
6. Board also recommended to start the certificate course in Food processing and Food Preservation (Syllabus enclosed).
7. Boys will be eligible to take admission in all the courses being run in the Institute of Home Science.

8. ~~M.A. (F.N.Y.)~~ B seat
to be increased
from 3 to 5.

Minutes of the meeting of Board of Study Held on 31/08/2022

Minutes of the meeting of BOARD OF STUDY held in Institute of Home Science on 31/08/2022 at 12 pm, Institute of Home Science, Khandari Agra. Meeting was organized to frame the syllabus of B. Sc. (Home Science) as per the NEP guideline 2020. The following members were present in the meeting –

- Prof. Achla Gakkar Dean & Director, IHS Agra (Member & convener)
- Prof. Archana Singh IHS Agra (Member)
- Mrs. Sanghmitra Gautam Assistant Professor, IHS Agra (Member)
- Dr. Madhulika Gantam Subject Expert, Associate Professor, DEL, Agra (Expert)
- Dr. Richa Verma Assistant Professor, DEL, Agra (Expert)

Meeting started with the welcoming of the members by the Director. Below mention issues were discussed in the meeting as per the recommendations of Academic Committee of Institute of Home Science held on 20/08/22. The Board confirmed the following:

1. Board recommended to start with B. Sc. Home Science (Regular Course) from coming session that is 2022-23 as per the NEP Guideline 2020. The minimum eligibility criteria 50% for General/OBC, 45% for Sc/St Category. Candidates having 10+2 certificate with Commerce, Science, and Arts subject will be eligible to take admission in B. Sc. (Home Science) in faculty of Home Science, Dr. B. R. Ambedkar University Agra. The numbers of seats are 120.
2. Board revised the syllabus and papers of B. Sc. (Home Science) as per the norms of NEP 2020. Board recommended the minor courses, co-curricular courses, and vocational courses.

Meeting ended with the vote of thanks.

MASTER OF SCIENCE IN HOME SCIENCE **(Specialization in Human Development and Family Studies)**

Programme Educational Objectives (PEOs)

The Program Educational Objectives (PEOs) for the Master of Science in Home Science (Specialization in Human Development and Family Studies) describe accomplishments that post graduates are expected to attain.

PEO-1: Provides opportunity for research in human development

PEO-2: Comprehend the various influences on human development in the different stages of life

PEO-3: Get insight into complexities and rational approach in human behavior and relationships

PEO-4: Imbibe professional ethics and socially responsible attitude in different areas of life

PEO-5: Apply knowledge of human development for better coping of individual and family and societal issues

Programme Outcomes (POs)

The students of Bachelor of Science in Home Science will be able to:

PO-1: To describe the growth and development of human from conception to late adulthood, as well as to understand family issues and developmental challenges that occur due to biological and ecological conditions.

PO-2: To create awareness regarding current trends, issues and research in Human Development and Family Studies.

PO-3: To gain the skills to establish Entrepreneurial setups like Early childhood educational centre, Centre for Special Children, Home for aged, Home for Orphans and destitute, Short stay homes for women in difficult circumstances

PO-4: To develop effective skills to extend guidance and counseling services to needy people, to identify the developmental challenges through scientific measures and to provide a stimulating environment and intervention for needy people for their optimum development.

Registrar
Dr. B.R.A. University, Agra

PO-5: To facilitate the students to work professionally and efficiently in academics, research, curriculum development, management of institutions and welfare programs, training, extension and community services relate to human development.

Programme Specific Outcome (PSOs)

After the successful completion of Bachelor of Science in Home Science, the students will be able to:

PSO-1: Gain in depth knowledge in the field of human development

PSO-2: Develop skills for psychological testing, counselling and guidance

PSO-3: Demonstrate skills and abilities for problem solving related to family and relationship issues

PSO-4: Explore the evolving concepts and trends in education, counseling and care especially for children, adolescents and geriatric population

PSO-5: Provide scope for trainings and internships to get real exposure to work environment and professional abilities

Registrar
Dr. B.R.A. University, Agra

Paper – I
Research Methodology
M.Sc. (Home Science) I Semester
(General, Spl. Grp. ‘A’, ‘B’ & ‘E’)
B.Sc. (Home Science) VII

Course Type: Theory Major

CIE – 25 Marks

UE – 75 Marks

Teaching Periods: 4/Week

Credits: 4

Course Objectives: This course aims to introduce the basic concepts in research methodology in Social science, Address the issues inherent in selecting a research problem, Discuss the techniques and tools to be employed in completing a research project, Equip students with a basic understanding of the underlying principles of quantitative and qualitative research methods, Provide students with in-depth training on the conduct and management of research from inception to completion using a wide range of techniques.

UNITS	COURSE AND DETAIL	PERIODS
UNIT- I	Introduction to Research	
	1. Meaning, purpose, approaches and scope in various field of Home Science	2
	2. Types of Research	3
	3. Selection of Research problem: need, relevance and feasibility	2
	4. Research Design: meaning, purpose and criteria(Experimental and Observational)	3
	5. Quantitative and Qualitative approaches	2

 Registrar
 Dr. B.R.A. University, Agra

UNIT- II	Research Process <ol style="list-style-type: none"> 1. Planning the Research 2. Defining the Research problem 3. Research Objectives: Definition and formulation of hypothesis/objectives 4. Review of related literature 5. Basics of Sampling: Sampling vs. Complete Enumeration Objectives, Principles and Limitations of sampling, Sampling Techniques, Size and Error 	<p style="text-align: right;">2</p> <p style="text-align: right;">2</p> <p style="text-align: right;">2</p> <p style="text-align: right;">2</p> <p style="text-align: right;">4</p>
UNIT-III	Data Gathering Instruments/ Tools <ol style="list-style-type: none"> 1. Primary and Secondary Data 2. Methods and Tools in Data Collection (Schedule, Questionnaire, Interview, Case Study Method etc.) 3. Measurement and Scaling Techniques 4. Validity, Reliability, Sensitivity of Data Collection Tools 	<p style="text-align: right;">1</p> <p style="text-align: right;">4</p> <p style="text-align: right;">4</p> <p style="text-align: right;">3</p>
UNIT- IV	Report Writing <ol style="list-style-type: none"> 1. Summary, Conclusion and Recommendations 2. Writing References 3. Writing Process of Research Report: Formal Style of writing, Preface, Chapterization, Headings, Tables and Figures, Appendices, Bibliography and Acknowledgement 	<p style="text-align: right;">3</p> <p style="text-align: right;">2</p> <p style="text-align: right;">7</p>

SESSIONAL WORK

- Prepare a research plan of any field of Home Science.
- Prepare a Schedule/Questionnaire of the related topic using scaling techniques.
- Gathering information from pilot survey and make a sample master chart for analysis.

Paper – II
Infant Development and Stimulation
M.Sc. (Home Science) I Semester (Spl Grp. ‘A’)
B.Sc. (Home Science) Semester VII

Course Type: Theory Major

Credits: 4

Teaching Periods: 4/ week

CIE – 25 Marks

UE – 75 Marks

- **Course Objective:** This course aims to develop insight into students about the nature and techniques of assessment in infancy and to give overview of infancy and infant development as a first stage in the life span development process.

UNIT- I	Organizational Skills of New Born and Infant	PERIODS
	a. Newborn reflexes, States and Learning capacities (classical conditioning, operant conditioning and habituation).	3
	b. Needs and importance of infant assessment, neonatal behavior assessment techniques	3
	c. Methodological issues and ethical issues/concerns related to infant assessment	3
	d. Common genetic disorders and their diagnosis before birth and genetic engineering.	3
UNIT- II	Early Experiences, Early Interactional and Developmental Consequences	
	a. Motor skills, early manipulations, cultural variations in motor development, milestones (birth to 2 years)	3
	b. Sensory, perceptual capacities (touch, hearing, Vision, Sensitivity of depth, face perception)	6
	c. Role of attachment (i) dyadic versus multicaring (ii) Role of father in formation of attachment. (iii) Maternal deprivation and its consequences (iv) Cultural variation in early interactions	3
UNIT-III	Language and Cognitive Development in Infancy	
	a. Components of language	2
	b. Prelinguistic development	3
	c. Phonological development	3
	d. Piaget’s state of cognitive development	3
	e. Individual and cultural differences in language and cognitive development	1

UNIT- IV	Intervention and Stimulation Programmes	
	a. Theoretical perspectives to show the need and rationale for intervention stimulation programmes	3
	b. Existing national and international programmes of infant care and stimulation.	6
	c. Issues and concerns related to intervention programmes	3

Sessional Work

1. Seminar presentation on any topic from syllabus.
2. Academic assessment through short and long questions.
3. Discussions on issues related to infant development and stimulation.

7. Osofsky J.D. 1987. Handbook of infancy. Wiley and Sons.
8. Sharma N. 1990 Current Trends in infant care. An Indian Experience Early Child Development Care

Course Outcomes:

This course will enable the students-

CO-1: To gain an understanding of theoretical, empirical and applied work in the field of infancy.

CO-2: To form a meaningful and practical understanding of infancy with special reference to Indian context.

Paper - III
Maternal and Child Nutrition
MSc. Food and Nutrition SPL Group 'B' / Group 'A' I Semester
B.Sc. (Home Science)-Semester VII

Course Type: Theory Major

UE – 75 Marks

CIE – 25 Marks

Credits: 4

Teaching Periods: 4/ week

Course Objectives:

This course focuses on providing students with knowledge and skills related to promoting optimal nutrition and health outcomes for mothers, infants, and children. This subject typically covers various aspects of nutrition during pregnancy, lactation, infancy, childhood, and adolescence. Here are some common objectives of Maternal and Child Nutrition:

CONTENTS

UNIT-I	PREGNANCY	PERIODS
	1. Pregnancy: The period of physiological stress	2
	2. Physiological changes during pregnancy	1
	3. Nutrition during pregnancy – Nutrient, requirement, diet & dietary pattern	4
	4. Maternal Nutrition&foetal outcome- pre pregnancy weight and foetal outcome, BMI , Weight gain during pregnancy	4
	5. Risk factors during pregnancy	1
UNIT- II	LACTATION	
	1. Breast Feeding- Colostrum, composition and importance, initiation of breast feeding and duration, advantages of breastfeeding	3
	2. Nutrition needs of lactation	1
	3. Diet and Dietary pattern for lactating woman	2
	4. Effect of maternal malnutrition on milk output and quality of milk	1
	5. Introduction of complementary foods- initiation and management	2
	6. Infant milk substitute act, BPNI (Breast feeding promotion Network in India)	1
	7. Management of pre-term, low birth weight babies and IUGR	1
UNIT-III	INFANCY, CHILDHOOD AND ADOLESCENCE	
	1. Importance of focussing health & nutrition interventions in first 1000 days of life & improving delivery of key nutrition interventions, its evidence, impact, significance for controlling under nutrition & new government initiatives (IYCF- Infant and young Child feeding practices, IGMSY- Indira Gandhi Matratv Suraksha Yojana, Janani Suraksha Yojana)	2

	2. Nutritional requirements during infancy, early childhood, childhood and adolescence with special reference to girl child	6
	3. Diet for preschool child, nutritional deficiency diseases and corrective measures	4
	4. Dietary management of common childhood diseases	2
UNIT-IV	GOVERNMENT PROGRAMMES AND NUTRITION COMMUNICATION	
	1. Problems in improving micronutrient deficiencies in children, Pregnant / Lactating women and adolescent girls: issues, weaknesses and newer initiatives of government (Kishorishakti, SABLA), way forward	4
	2. School health programs in India: Current status, bottlenecks	2
	3. School lunch programmes	2
	4. Efficient methods of teaching principles of nutrition to children & mothers	2

8. Indian council of Medical Research. Nutrient requirements & recommended dietary allowances for Indians (2009).
9. Indira Gandhi National Open University. School of Continuing Education (2012). Childhood Nutrition: Basic Concepts and Physiological requirements- Course 1.

Sessional	
1.	Plan diet for pregnant and lactating women
2.	Plan and prepare nutrient dense, complementary foods for 6-12 month old infants
3.	Plan and prepare diet for an infant
4	Plan low cost recipe for Balwadi and Aanganwadi and school lunch programmes
5	Plan diet for deficiency diseases and common childhood illnesses
6	Plan diet for different age groups of children & adolescents

 Registrar

Paper – IV
Guidance and Counseling Across the Lifespan
M.Sc. (Home Science) I Semester (General & Spl Grp. ‘A’)
B.Sc. (Home Science) Semester VII

Course Type: Theory Major

Credits: 4

Teaching Periods: 4/ week

CIE – 25 Marks

UE – 75 Marks

Course Objectives: This course aims to develop an understanding about the concept of guidance and counselling among students, Recognize the behavioural problems and examine strategies for positive behaviour management and to teach students an ethical approach of counselling.

UNIT- I	Guidance and its Nature	PERIODS
	a. Meaning, aims, principles and basic assumptions of guidance	3
	b. Needs and importance of child and family guidance	3
	c. Kinds of guidance- educational, vocational and personal	6
UNIT- II	Guidance of Children at School and Home	
	a. Elementary school years	3
	b. Adolescence- need of sex education at home and school	3
	c. Middle years	3
	d. Old age	3
UNIT-III	Life Span Psychological Disorders and Counseling	
	Nature of psychological disorders that require counseling and therapy in the following stages of human development-	
	a. Childhood	3
	b. Adolescence	3
	c. Adulthood	3
	d. Old age	3
UNIT- IV	Counseling	
	a. Meaning, aims, principles and basic assumptions of Counseling	3
	b. Needs and importance of child and family counseling	3
	c. Qualities and skills of counselor	3
	d. Techniques of counseling- directive and non-directive	3

Paper – V
Infant Development and Stimulation Practical
M.Sc. (Home Science) I Semester (Spl Grp. ‘A’)
B.Sc. (Home Science) Semester VII

Course Type: Practical Major

Credits: 4

Teaching Periods: 4/ week

CIE – 25 Marks

UE – 75 Marks

Course Objective: This course aims to give practical knowledge of assessing development of infants and to develop ability of designing activities for infants to stimulate physical, motor, social and cognitive development.

Practical Work:

1. Observation and assessment of four infants in hospitals/clinics and submitting a report of the same.
2. Formulating activities for infant stimulation to promote physical motor, social and cognitive development.
3. Presentation of any research conducted and discussion of its implications.
4. Anthropometric measurements of infants to determine health status
5. Assessment of attachment quality of infants.

Course Outcomes:

CO-1: This course will enable the students to gain the practical experience via observation and assessment of developments of children.

CO-2: This course will enable the students to design multi-sensory stimulating activities for promoting the developments of infants.

(From Other Faculty)
As per the university list

ALI101: Introducing Language Sciences

Course Objective:

The course introduces students to the basics of Linguistics. It quashes many myths about language and gives a fair idea of the areas that modern linguistics addresses to.

Unit I. Introduction to Language and Linguistics, Descriptive vs Prescriptive, Tradition, Design Features of Human Language The Origin of Speech.

Unit II. Building blocks of language: Phonetics & Phonology, Building blocks of language: Morphology , Building blocks of language: Syntax , Building blocks of language: Semantics

Unit III. Structure of Sign Languages, Language in Society, Variation, Indian Multilingualism, Linguistic Diversity, Language Endangerment and Maintenance

UNIT IV. Language Contact, Language Change, Language Universals

Textbook

1. O'Grady, William and John Archibald (ed). 2017. Contemporary Linguistics: An Introduction (7e). New York
2. Fromkin, Victoria, Robert Rodman and Nina Hyams. 2014. An Introduction to Language (10e). Singapore: Wadsworth.

Course Outcomes:

At the end of the course students are expected to have:

CO-1: An overview of the field of Language Sciences/Linguistics as it stands today

CO-2: An ability to answer questions like "how many languages do you know", "do you know all the languages", "linguistics of which language" and "what exactly you do in Linguistics" .

Course Mapping:

M. Sc. (Home Science) I Semester
(General, Grp. ‘A’, Grp. ‘B’ and Grp. ‘E’)/
B.Sc. (Home Science) Semester VII

CIE – 25 Marks
UE – 75 Marks

Credits: 4

Course Objectives:

- Demonstrate advanced critical research skills, to establish links between theory and methods within their field of study
- Acquire research skills to develop a research proposal, understand protocol, design and manage a piece of original project work

Course Content:

1. Identification of research problem
2. Preparation and finalization of synopsis

Course outcomes:

CO-1: Help to develop in-depth knowledge of the major subject/field of study, including deeper insight into current research

CO-2: Develop capability to use a holistic view to critically, independently and creatively identify, formulate and deal with research topic

Abbreviations:

CIE: Continuous Internal Evaluation

Paper – VIII

Fundamentals of Statistics

M.Sc. (Home Science) II Semester

(General, Spl. Grp. 'A', 'B' & 'E')

B.Sc. (Home Science) Semester VIII

Course Type: Theory Major

CIE – 25 Marks

UE – 75 Marks

Teaching Periods: 4/Week

Credits: 4

Course Objectives: The course aims to develop an understanding of scope of statistics in Home Science and provide a comprehensive knowledge about statistical measures to analyze data and interpretation of data.

UNIT- I	Introduction to Statistics	PERIODS
	1. Meaning of Statistics and its scope in Home Science and other field of inquiry	2
	2. Processing of Data: Editing, Classification and Coding of Data	3
	3. Tabulation of Data	2
	4. Diagrammatical and Graphical representation of data: Significance of difference between Diagram and Graph, Types of Diagram and Graph (Bar Diagrams, Histogram, Polygon, Ogives)	3
	5. Formation of Discrete and Continuous Frequency Distribution	2
UNIT- II	Statistical Measures	
	1. Measures of Central Tendency (Mean, Median, Mode, Quartiles, Deciles, Percentiles)	6
	2. Measures of Dispersion/Variation (Range, Mean and Quartile Deviation, Standard Deviation, Coefficient of Variation)	

		6
UNIT- III	Correlation, Regression and Association of Data	
	1. Simple Correlation for Grouped and Ungrouped Data (Karl Pearson's , Spearman Rank Correlation), Basic concepts of Partial and Multiple Correlation	5
	2. Simple Linear Regression for Grouped and Ungrouped Data	5
	3. Measures of Association	2
UNIT- IV	Test of Significance	
	1. Hypothesis, its type and error, Level of Significance, Critical Region, One Tailed and Two Tailed Test	2
	2. Large Sample Test: One sample and two sample test for population Mean and Proportion	2
	3. Small Sample Test: Applications of t- test (for one sample and two problems)	3
	4. Chi Square Test and its applications	2
	5. F- Test and its applications	3
	Computer Applications in data Analysis	
	• Use of Statistical Software in data analysis	

SESSIONAL WORK

- Summarization and Presentation of data using tables and graphs.
- Applications of Statistical Techniques to data analysis and interpretation of data.
- Applications of z, t F and Chi-Square test in hypothesis testing.
- All the above will be done using Statistical Software.

Credits: 4

Teaching Periods: 4/ week

CIE – 25 Marks

UE – 75 Marks

Course Objective: To create awareness regarding current trends, issues and researches related various aspects of human development, early childhood education, family studies and disabilities.

UNIT- I	Trends and Issues related to Process of Development	PERIODS
	a. Psycho-motor development	2
	b. Perceptual development	2
	c. Cognitive development	2
	d. Language development	2
	e. Socio-emotional development	2
	f. Moral development	2
UNIT- II	Trends and Issues related to Early Childhood Care and Education	
	a. Demography status in early preschool and primary years, gender equality and equity	3
	b. Issues and concerns related to children in difficult circumstances-street children, adopted children, girl child, single parent children, children with disability and other vulnerable groups	3
	c. Issues and concerns related to quality in early childhood and primary curriculum	3
	d. Issues and concerns related to training of ECCE personnel and accreditation processes	3
UNIT-III	Trends and Issues related to Life-span Development	
	a. Infancy	3
	b. Childhood	3
	c. Adulthood	3
	d. Old age	3

Registrar
Dr. B.R.A. University, Agra

UNIT- IV	Trends and Issues related to Family Studies*	12
-----------------	---	-----------

Sessional Work

*The content of Unit IV shall be taken up for report writing and seminar presentations.

9. Mussen P.H. Conger J.J. Kagan J and Huston A.C. 1984. Child Development and Personality (VI Edition) Harper and Row Publishers

Course Outcomes:

This course will enable the students-

CO-1: To learn about recent trends and issues in Human Development.

CO-2: To understand the importance of innovative/new programs in the field.

CO-3: To develop analytical skills for discussion on issues and concerns related to human development.

Paper – X

Theories of Human Development M.Sc. (Home Science) II Semester (Spl Grp. 'A') B.Sc. (Home Science) Semester VIII

Course Type: Theory Major

Credits: 4

Teaching Periods: 4/ week

CIE – 25 Marks

UE – 75 Marks

Course Objectives:

This course will enable the students-

1. To make the students have knowledge of the theories of human development and behavior
 - a) To analyse the major contributions of a theorist
 - b) Identify and address the major criticisms of a theory
2. To develop in students an appreciation for primary literature
3. To introduce the students to the latest theories of human development and behaviour

UNIT- I	Overview of Theories	PERIODS
	a. Concepts/ definitions of theories	1
	b. Role of theory in advancement of knowledge	1
	c. Process of theory development	2
	d. Psychoanalytic Perspectives - Freud and the Neo Freudians	
	(i) Psycho analytic theory of Freud	2
	(ii) Alfred Adler	2
	(iii) Carl Jung	2
	(iv) Erick Erickson	2
UNIT- II	Learning Perspective	
	a. Classical conditioning - Pavlov	3
	b. Operant conditioning	3
	c. Trial and error – Thorndike	3
	d. Bandura and Walters	3
UNIT-III	Cognitive and Moral Perspective	
	a. Piaget's theory of cognition	3
	b. Vygotsky theory	2
	c. Information processing theory	4
	d. Moral reasoning and development-perspective of Kohlberg and Piaget	3

UNIT- IV	Personality and Contemporary Theories	
	a. Gordon Allport	3
	b. Kurt Lewin	3
	c. Urie Bronfenbrenner	3
	d. Maslow	3

Sessional Work

1. Term paper on any one of the theories
2. Seminar presentation of various issues related to theoretical perspectives
3. Presentations / making reading cards on articles from Journal

References:

1. Hall C.S. and Lindzey G. 1978. Theories of Personality (IIIrd Edition). John Wiley and Sons. Toronto.

Paper – XI
Literature, Media and Children
M.Sc. (Home Science) II Semester (Spl Grp. ‘A’)
B.Sc. (Home Science) Semester VIII

Course Type: Theory Major

Credits: 4

Teaching Periods: 4/ week

CIE – 25 Marks

UE – 75 Marks

Course Objectives:

This course aims-

1. To study notions of childhood through literary texts across region and period.
2. To understand the changing representations of childhood in literature and media
3. To identify impact of literature and media on children
4. To examine research trends in children's evolving relationships with media

UNIT- I	Literary Representation of Children's Lives	PERIODS
	a. Children's social presence and notions of childhood in literary texts	4
	b. Child protagonist gender roles and emerging themes about Childhood	2
	c. Socio-cultural perspectives, movements and emerging images of children, family and national identities	6
UNIT- II	Children's Relationship with Different Media	
	a. Childhood in art, advertising, television and film	3
	b. Violence and aggression and childhood perceptions	3
	c. Review of research with childhood audiences	3
	d. Features of media that engage children	3
UNIT-III	Aspects of Content in Children's Literature and Media	
	a. Locating themes in childhood spaces and competencies	3
	b. Humor and playful contexts to enhance appeal and comprehension	3
	c. Media literacy and children's expression	3
	d. Child participation and social responsibility through media	3
UNIT- IV	Project*	

Registrar
 Dr. B.R.A. University, Agra

	a. Exploring the status of children in any selected region of India through multiple textual sources	4
	b. Using normative features of growth and development to review content of children's television programs	4
	c. Understanding notions of childhood among authors or producers for children's books / programs	4

Sessional Work

*The theoretical content of Unit IV shall be taken up for report writing and seminar presentations.

Paper – XII
Literature, Media and Children- Practical
M.Sc. (Home Science) II Semester (Spl Grp. ‘A’)
B.Sc. (Home Science) Semester VIII

Course Type: Practical Major

Credits: 4

Teaching Periods: 4/ week

CIE – 25 Marks

UE – 75 Marks

Course Objectives: This course aims to develop skills of creating teaching aids for children and critically analyze the available literature and media for children on developmental perspective.

Practical Work

1. Prepare teaching aids for children of different age groups.
2. Critical analysis of available literature or media content for children.
3. Prepare any two literary aids for creating awareness among children.
4. Write two articles on any topic for creating awareness among parents on current scenario.

Course Outcomes:

CO-1: By the end students will be able to analyze and clearly articulate interpretations of the various meanings of the texts we read, with particular reference to relevant contexts and subtexts. “Texts” include written and spoken language, visual, pictorial, kinetic, multimodal.

CO-2: Students will be able to prepare literary and media items for different age groups of children.

M. Sc. (Home Science) (General, Spl. Grp. ‘A’, ‘B’ & ‘E’) II Semester/
B.Sc. (Home Science) Semester VIII

CIE – 25 Marks
UE – 75 Marks

Credits: 4

Course Objectives:

- Demonstrate advanced critical research skills, to establish links between theory and methods within their field of study
- Acquire research skills to develop a research proposal, understand protocol, design and manage a piece of original project work

Course Content:

1. Review of Literature and methodology of the study
2. Finalization of Data collection tool

Course Outcomes:

CO-1: Help to develop in-depth knowledge of the major subject/field of study, including deeper insight into current research

CO-2: Develop capability to use a holistic view to critically, independently and creatively identify, formulate and deal with research topic

Abbreviations:

Paper – XIV
Methods of Studying Human Development
M.Sc. (Home Science) III Semester (General & Spl Grp. ‘A’)/
Semester IX

Course Type: Theory Major

Credits: 4

Teaching Periods: 4/ week

CIE – 25 Marks

UE – 75 Marks

Course Objectives: This course aims to comprehend the developmental designs adopted to study children and develop an insight into the various methods of data collection.

UNIT- I	Introduction	PERIODS
	a. Importance need and scope of studying human development	4
	b. Techniques of research in human development- time span longitudinal, cross sectional and sequential approach	3
	c. Psychological Tests – Meaning, Standards of a good test with emphasis on reliability and validity, sources of information about tests.	5
UNIT- II	Methods of Studying Human Development	
	a. Interview, observation, questionnaire, case study and rating scale – factors involved in preparation and administration, advantages and disadvantages.	6
	b. Projective Techniques –Meaning, uses and importance. i. Inkblot Techniques (Rorschach and Holtzman) ii. Pictorial techniques (CAT, TAT, Rosenweig Picture Frustration study). iii. Verbal Techniques (word association, sentence completion, word blank and sentence blank).	6
UNIT-III	Assessment of Mental Ability	
	a. Verbal-Non verbal tests	4
	b. Bayley scale of infant ability	2
	c. Wechsler and Binet test of Intelligence	6
UNIT- IV	Tests of Physical and Social Ability/Acquity	
	a. Motor-Manual Tests	5
	b. Sociometry (Use, Methodology and Interpretation)	4
	c. Anthropometric measurements for studying health	3

	parameters			
--	------------	--	--	--

Sessional Work

1. Preparation of the following:-
 (a) Questionnaires (b) Interview schedule (c) Observation schedule.
2. Testing reliability and validity
3. Seminar Presentation on any scale/tool.

Paper – XV
Women Studies
M.Sc. (Home Science) III Semester (Spl Grp. ‘A’ & Grp ‘E’)/
Semester IX

Course Type: Theory Major

Credits: 4

Teaching Periods: 4/ week

CIE – 25 Marks

UE – 75 Marks

Course Objectives:

This course aims to impart knowledge to students regarding scope and perspectives to women’s studies in cultural context and acquaint them to various important issues regarding women’s studies and development.

UNIT- I	Women Perspectives and Movements- A General Overview	PERIODS
	a. Meaning and scope of women's studies	2
	b. Women's perspective and its constituent elements in present social economic and cultural context	4
	c. Women's Movement in pre independent and post independent periods and present trends	4
	d. Milestones and obstacles in women's Movement in India	2
UNIT- II	Women and the Indian Scenario	
	a. Feminism, its basic types and their relevance to Indian context. Facts and myths of feminism.	2
	b. Importance of women's participation in economics, educational, social and political development.	6
	c. Gender role and sex role stereotypes. changes in educational, economic, social and familial status of women	4
UNIT-III	Women Challenges and Issues	
	a. Population statistics and sex ratio	2
	b. Working women and challenges - problems of working women in unorganized sector	3
	c. Issues concerning Women-gender violence, dowry harassment and deaths, suicides. Commercial and religious prostitution, eve-teasing, family and domestic violence foeticide and infanticide, child marriage.	7
UNIT- IV	Media, Laws and Policies	
	a. A critique of laws for women	4

	b. Women and mass media	2
	c. Women's health and family planning, health indicators	2
	d. National Women's Commission and State Commission for Women and their role in women studies and policy issues	4

Sessional Work

- a) Observational visits to women's organization
- b) Planning and organizing awareness campaigns on vital women's issues
- c) Portrayal of women in mass media-newspapers, magazines, television, movies.
- Critical analysis
- d) Situation analysis of gender equality and equity

Paper – XVI

Gerontology

M.Sc. (Home Science) III Semester (Spl Grp. 'A')/ Semester IX

Course Type: Theory Major

Credits: 4

Teaching Periods: 4/ week

CIE – 25 Marks

UE – 75 Marks

Course Objectives:

This course aims-

- To make the students aware of the importance and need of studying the aged.
- To make the students realize need of youth in taking up the responsibility of looking after the aged for a harmonious family life.
- To make the student gain knowledge about the latest areas and trends of research in gerontology.

UNIT- I	An Overview of the Aged – Indian and Global	PERIODS
	a. Definition socio demographic profile of the aged in Indian context	5
	b. Theoretical perspectives on ageing	4
	c. Contemporary socio cultural changes and their effects on aged – National and International scenario	3
UNIT- II	Impacts and Problems of the Aged	
	a. Impact of ageing on (i) Physical (ii) Psychological (iii) Financial (iv) Socio-emotional aspects, abuse	8
	b. The aged in the family context- problems and prospects, support systems	4
UNIT-III	Psycho Physical Aspects of Ageing	
	a. Ageing and health	6
	b. Stress among the aged and various coping strategies – psychological impact	6
UNIT- IV	Research and Programs of the Aged	
	a. Research trends in gerontology and methodological issues	6
	b. Welfare of the aged policies and programmer	6

Registrar
Dr. B.R.A. University, Agra

Sessional Work

1. Visit to the old age home
2. Presentations of case studies on various issues covered in the course of aged persons
3. Conducting leisure time activities for the aged

References:

1. Dandekar K, 1996. The elderly in India. Sage Publication

Paper – XVII
Persons with Disabilities
M.Sc. (Home Science) III Semester (Spl Grp. ‘A’)
Semester IX

Course Type: Theory Major

Credits: 4

Teaching Periods: 4/ week

CIE – 25 Marks

UE – 75 Marks

Course Objectives:

This course aims-

- To aware students about various impairments and the manner in which these affect the lives of individuals
- To realize that the experiences of individuals with disabilities are related to their age, gender and also shaped by the context
- To develop an understanding of rights of persons with disability

UNIT- I	The Abled and the Differently Abled	PERIODS
	a. Various approaches to defining and understanding disability – philanthropic, medical, administrative, legal and the social	6
	b. The role of context in the meaning of normality and disability	2
	c. Physical and social barriers in development of person with disability	4
UNIT- II	Disabilities-Types, Management and Rehabilitation	
	Different types of impairments, causes, nature, classification, assessment, treatment, training and rehabilitation of the following individuals	2
	a. Physical	3
	b. Intellectual	3
	c. Emotional	2
	d. Sensory	2
UNIT-III	Some other Disabilities and Responses to Disability	
	Nature, Causes and Assessment of the following	2
	a. Learning disabilities	2
	b. Giftedness	2
	c. Communication disorders	2
	d. Autistic spectrum disorders and pervasive developmental	3

	disorders	
	e. ADHD	1
UNIT- IV	Family, School and Society	
	a. Child in the family, parents, siblings, grandparents and significant others	4
	b. Role of school, curricular adaptations, teaching strategies, materials and resources, special and inclusive education	5
	c. Disability Policy and Legislation – Legislative approaches in the provision of services to people with disorders and disabilities	3

Sessional Work

1. Visit to Centres/Institute of differently abled persons.
2. Preparation of teaching aids and leisure time activities for differently disabled.
3. Preparation of a study case of differently abled person.
4. Seminar and presentations on current topics with regard to the differently abled.

Computer Application in Designing
M.Sc (Home Science) III Semester
(General, Spl. Grp. 'A', 'B' & 'E')/
Semester IX

Course Type: Practical Major

CIE – 25 Marks

UE – 75 Marks

Teaching Periods: 4/Week

Credits: 4

Course Objectives: The Course aims to equip students with the knowledge, skills, and practical experience needed to create innovative and visually compelling designs using digital tools, prepare them for careers in various design fields, and adapt to the evolving demands of the design industry

Practical:

S.No.	Topics	No. of Classes
1.	Use of computer peripherals	
	Scanner	2
	Printer	2
	Storage device	2
2.	Use of designing software	
	Power point	3
	Coral draw	7
	Photo Shop	4
	Page Maker	4

Registrar
Dr. B.R.A. University, Agra

3.	Planning and preparation of communication material for rural women related to agriculture/ home science Slides Leaflet/Folder Booklet/flip Book Cover page of different publications	4 4 6 2
4.	Field testing of developed communication material	2
5.	Evaluation of the developed material	2
	Total	44

Paper- XX
Advanced Physiology
MSc Food and Nutrition Spl. Group B/Group A
M.Sc General IV Semester/
Semester-X

Course Type: Theory Major

UE – 75 Marks

CIE – 25 Marks

Credits: 4

Teaching Periods: 4/ week

Course Objectives

This course will enable the students:

- To understand the functions of physiological systems including the lymphatic system, circulatory system, respiratory and digestive system, excretory and endocrine system ,reproductive and nervous system.
- To perform, analyse and report on different experiments (slides of different human organs)and observations in physiology
- To recognize and identify principal tissue structures.

CONTENTS

UNIT -I	INTRODUCTION TO LYMPHATIC & CIRCULATORY SYSTEM	PERIODS
	1. Lymphatic system and its and functions.	2
	2. Circulatory System: blood – composition, blood cells - development and function of blood cells, blood clotting, blood grouping and haemoglobin	5
	3. Heart and its anatomy. Circulation of blood, cardiac cycle, blood pressure and factors affecting blood pressure.	4
UNIT-II	RESPIRATORY AND DIGESTIVE SYSTEM	
	1. Respiratory system: anatomy, physiology and mechanism of respiration, regulation of respiration.	5
	2. Digestive system: anatomy of gastrointestinal tract and accessory organs. Digestion and absorption of food.	6
UNIT-III	EXCRETORY AND ENDOCRINE SYSTEM	
	1. Excretory system: anatomy and functions of kidney, formation, composition and excretion of urine.	5
	2. Endocrine glands, mode of action of hormones	5
UNIT- IV	REPRODUCTIVE AND NERVOUS SYSTEM	
	1. Reproductive system: structure and functions of male and female reproductive organs.	5

	2. Nervous system: anatomy and functions.	5
--	---	---

	Sessional	Periods
1.	Microscopic examination of prepared slides of different human organs	2
2.	Estimation of haemoglobin	2
3.	Identification of blood groups	2
4.	Preparation of blood smear.	1
5.	Measurement of blood pressure.	2
6.	Estimation of blood glucose	2
7.	Preparation of TEC and TLC	2
8.	Preparation of blood Haem-crystals	1
9.	Demonstration and study of models of human body system.	2

Course Outcomes

After completing this course, student is expected to learn the following:

CO1: Learn the concepts of circulatory system, respiratory system and digestive system

CO2: Understand the functions of physiological systems.

CO3: Able to explain the different human organs in physiology

Course Mapping:

	PO 1	PO 2	PO 3	PO 4	PO 5	PSO 1	PSO 2	PSO 3	PSO 4	PSO 5
CO1	1	2	1	1	3	2	2	2	2	2
CO2	2	2	1	2	3	3	2	1	2	1
CO3	2	2	2	2	3	2	2	2	2	2

Matching: * 0 to 30% = 1; *30% to 60% = 2; * 60% to 100%=3
