

# 10 REDUCED INEQUALITIES

**The aim of Sustainable Development Goal 10 is to reduce income inequality, promote social, economic, and political inclusion of all, regardless of age, sex, disability, race, ethnicity, origin, religion, or economic or other status. This goal targets various forms of inequality, including those related to income, social status, gender, disability, and regions within and among countries. Dr. Bhimrao Ambedkar University contributes to SDG 10 in the following ways.**

## Community radio

The University boasts its own Community Radio (CR) well known as “**AGRA KI AWAZ**”, a distinctive feature that serves as a powerful tool for connecting with students, faculty, the community and other

stakeholders. The radio's programs address a wide array of topics ranging from gender, social, and national, to environmental issues. Additionally, it plays a crucial role in promoting and imparting skill education, providing insights into various subjects and offering career counselling. Moreover, the radio conducts interviews with diverse voices, including scholars, professors, subject experts and government

officials, amplifying their perspectives and insights. These interviews are then circulated through media channels, ensuring that they reach every stakeholder effectively. Established in October 2010, CR 90.4 “Agra ki Awaz” is the first community radio station in any State Govt. Aided University of Uttar Pradesh. Operating as an autonomous and non-commercial entity with

the motto "For the People. By the People", CR 90.4 transmits at 90.4 MHz with a 50-watt transmitter, broadcasting for six hours daily, primarily focusing on quality education, health awareness, government schemes, gender equality, professional and economic growth.

It serves as a platform for disseminating knowledge, fostering dialogue and promoting social cohesion within the local community. Addressing issues such as health, education, development and awareness, it also provides entertainment for both university students and local talent. CR 90.4 has become an integral

part of the University, reflecting the community's hopes, aspirations, problems and concerns while encouraging active listener participation.

**Engaging with Local Issues:** The station facilitates discussions, debates and interviews on topics relevant to the community, including education, healthcare, environment, tourism, infrastructure and governance. By providing a platform for dialogue, it promotes civic participation and empowers listeners

to voice their opinions and concerns.

**Disseminating Educational Content:** DBRAU utilizes the station to disseminate educational content to students, faculty and the wider community. It broadcasts lectures, seminars, workshops and educational

programs on various subjects, complementing traditional classroom instruction and promoting lifelong learning opportunities.

**Supporting Local Development Initiatives:** CR 90.4 actively supports local development initiatives and community outreach programs undertaken by DBRAU. It raises awareness about university-led projects, research findings, community service activities and extension programs aimed at addressing social, economic and environmental challenges in the region.

**Showcasing Youth Potential:** The station serves as a platform for showcasing the talents, initiatives and aspirations of young people in the community. It celebrates Agra's cultural heritage by featuring programs on local folklore, music, cuisine, historical landmarks and cultural events.

**Promoting Regional Language and Literature:** CR 90.4 promotes the use of regional languages such as Hindi, Urdu and Braj Bhasha, thereby preserving and promoting local literature, poetry and dialects, contributing to the preservation of linguistic and cultural heritage.

**Empowering Marginalized Communities:** The station amplifies the voices and concerns of marginalized and underrepresented communities, promoting social inclusion and diversity. Its programming highlights the experiences, perspectives and aspirations of marginalized groups, empowering them to advocate for their rights and interests.

**Facilitating Collaboration and Networking:**

CR 90.4 fosters collaboration with local stakeholders, facilitating partnerships for sustainable development. It enhances DBRAU's community engagement, promoting cultural heritage, facilitating educational outreach and contributing to regional development. This underscores the university's commitment to public service and holistic stakeholder development.

Lecture delivered by Dr. Purnima Singh, Gynecologist,  
Pushpanjali Hospital, Agra on "Swasth Naari Sashkt Naari"

Program on “Stress Evaluation and Management”

Seminar on “Swasth Naari and Sashkt Naari”

**डॉ० भीमराव आंबेडकर विश्वविद्यालय, आगरा**  
(पूर्ववर्ती आगरा विश्वविद्यालय, आगरा)

संख्या: प्रशा०/१२७/२४

दिनांक : २८/०२/२०२४
